The Chaos Cycle:

The Hollow Gods A. J. Vrana, 2020-07-28 Black Hollow is a town with a dark secret For centuries residents have foretold the return of the Dreamwalker an ominous figure from local folklore said to lure young women into the woods and possess them Yet the boundary between fact and fable is blurred by a troubling statistic occasionally women do go missing And after they return they almost always end up dead When Kai wakes up next to the lifeless body of a recently missing girl his memory blank he struggles to clear his already threadbare conscience Miya a floundering university student experiences signs that she may be the Dreamwalker s next victim Can she trust Kai as their paths collide or does he herald her demise And after losing a young patient crestfallen oncologist Mason embarks on a quest to debunk the town s superstitions only to find his sanity tested A maelstrom of ancient grudges forgotten traumas and deadly secrets loom in the foggy forests of Black Hollow Can three unlikely heroes put aside their fears and unite to confront a centuries old evil Will they uncover the truth behind the fable or will the cycle repeat

The Echoed Realm A. J. Vrana, 2021-08-10 Ancient fables rise from the grave and take a sinister turn in the thrilling sequel to A J Vrana s haunting dark fantasy debut *The Hollow Gods* Fans of V E Schwab and Maggie Stiefvater will devour this macabre folktale even as it awaits to consume them from between the pages Miya s world ended in Black Hollow It s been three years since the Dreamwalker upended her life and left her with a heavy burden A fledgling to the ethereal realm Miya stumbles into the nightmares of those haunted by spectres Little does she know one of them is coming for her clutching a dark secret abreast Kai has found a new purpose with his companion but the price is his freedom Bound and beholden to Miya he struggles to adjust to his new role as her vanguard Meanwhile Mason discovers he may be a pawn trapped in a web of schemes Was his time in Black Hollow an accident or was it only the beginning of some greater machination As Black Hollow s bloody stain spreads beyond its wooded borders Miya fights to evade a past she barely understands The Dreamwalker s legacy is a vise grip and it isn t letting go Primordial horrors draw near fables come alive and long buried histories rise from the grave ready to hunt Sharpen your claws and bloody your teeth There s fear to be sown

Who Do We Choose to Be?, Second Edition Margaret J. Wheatley, 2023-06-06 In a world we cannot recognize how do we find a way forward In this world we do not understand how do we know what to do When so little is comprehensible what is meaningful work What is genuine contribution Bestselling author Margaret Wheatley has summoned us to be courageous leaders who strengthen community and rely on fully engaged people since her 1992 classic book *Leadership and the New Science* and eight subsequent books In response to how quickly society is changing and the exponential increase in leadership challenges this second edition of her latest bestseller is 80% new material How do we see clearly so that we can act wisely Wheatley brings present reality into clear and troubling focus using multiple lenses of Western and Indigenous sciences and the historic patterns of collapse in complex civilizations With gentle but insistent guidance to face reality she offers us the path and practices to be sane leaders who know how to evoke people s inherent

generosity creativity and kindness Skillfully weaving science history exemplars poetry and quotes with stories and practices Wheatley asks us to be Warriors for the Human Spirit leaders and citizens who stay engaged choose service over self stand steadfast in the midst of crises and offer our reliable presence of compassion and insight no matter what

Our Cold Climate Transition Rex J. Fleming, 2024-03-26 Dr Rex J Fleming received his B S degree from Creighton University with a major in mathematics He later obtained a M S and Ph D from the U of Michigan in the field of Atmospheric Science He has over 50 years of experience in weather and climate research His Ph D thesis involved the study of energy interactions within the atmosphere and a stochastic dynamic method of improving our understanding of those atmospheric interactions in light of uncertain initial conditions The world is in chaos now due to the deliberate false theory that our climate is being warmed by the use of fossil fuel Many countries are deeply concerned with energy issues will there be enough energy resources available to keep people warm through the coming winter periods There have been many previous exaggerated claims that climate change warming was bad for mankind The opposite is true warmer periods have been very beneficial for humankind The latest claim from the United Nations UN is that the world will burn up with a 5 alarm fire unless the world stops using fossil fuel by a critical date is almost comical but one cannot laugh as this false theory has now reached a very serious point there are no efficient alternatives to fossil fuels and a cold regime is coming Not every year in a cold regime is severe but in the coldest periods deaths may result if energy is not sufficiently available Weather and the climate are chaotic There is rarely a sharp line between the end of a warm period and the start of a cool period There can be a discernable transition between the end of a warm period and the beginning of a cold period hence the title of this book A three year transition was seen at the end of the Medieval Warming Period 900 AD 1300 AD and the beginning of the Little Ice Age 1303 1850 during which millions died of starvation from famines This current cold climate transition is described in this book Will there be a 4th year of transition or the actual start of the Modern Cooling 2023 While there is considerable information contained in this book perhaps the single most relevant point is formulated in Chapter 10 page 90 Here we have the summary of the important physical evidence the appropriate statistical data and the effects of chaos rolled into a single statement about the next severe cold period likely occurring in 2030 4 years

Who Do We Choose To Be? Margaret J. Wheatley, 2017-06-19 On the twenty fifth anniversary of the publication of her classic Leadership and the New Science bestselling author Margaret Wheatley once again turns to the new science of living systems to help leaders persevere in a time of great turmoil I know it is possible for leaders to use their power and influence their insight and compassion to lead people back to an understanding of who we are as human beings to create the conditions for our basic human qualities of generosity contribution community and love to be evoked no matter what I know it is possible to experience grace and joy in the midst of tragedy and loss I know it is possible to create islands of sanity in the midst of wildly disruptive seas I know it is possible because I have worked with leaders over many years in places that knew chaos and breakdown long before this moment And I have studied enough
