**Convictions, Conflict, and Moral Reasoning** David J. McMillan, 2021-12-14 The primary focus of this volume is to bring to the fore the contribution of McClendon and Smith's work on convictions and the application of that work in helping understand the processes of moral reasoning in the context of conflict Both were indebted to Zuurdeeg and their concept was incorporated in models of moral reasoning by Baptist scholars Glen Stassen and Parush Parushev The usefulness of the concept is critically evaluated The volume concludes with a case study on the conflict in Northern Ireland including the role of religion and the key issues raised in the referendum on the Belfast Agreement in 1998 It includes an examination of the contribution of four Christian groups in Northern Ireland who publicly engaged in this six week period of intense and passionate debate on the Agreement and the difficult issues it addressed as the focus for examining and testing the application of the model of moral reasoning On the basis of the case study is demonstrated that the concept of convictions can prove to be a helpful means of getting to the heart of what drives moral reasoning in contexts of conflict The purpose of this book is to issue a call to engage with critique and consider the importance and application of a much undervalued methodological approach to discerning the convictions that are the primary influencers of thought and action The

Postmodern Theologies Terrence W. Tilley, John Christopher Edwards, Tami England, H. Frederick Felice, Stuart Kendall, 2005-06-30 An introduction and evaluation of contemporary approaches to theology Postmodern Theologies sets out to discern movements shaping the postmodern study of religion in a unique collaborative venture born of a postgraduate seminar at Florida State University While some might say that theology after the death of God is like biology after the end of life a discipline without a subject Postmodern Theologies identifies four general patterns of postmodernisms in theology today constructive theologies with Helmut Peukert David Ray Griffin and David Tracy cited as examples postmodernisms of dissolution Thomas J J Altizer Mark C Taylor and Edith Wyschogrod postliberal theologies George Lindbeck and communal praxis exemplified by Gustavo Gutierrez and other Latin American theologians and James Wm McClendon and Sharon Welch among North Americans These theologies eschew debates on traditional religious foundations to define true religion as the result of rather than the impetus to living one's beliefs As these disparate approaches to theology are not directly comparable the final chapter of Postmodern Theologies instead analyzes how each one accounts for the plurality of religions Exploring the postmodern strategies for coping with one of the most difficult questions in any theological age offers a fascinating way to assess their inherent strengths and weaknesses

Anglo-american Postmodernity Nancey Murphy, 2018-02-19 The term postmodern is generally used to refer to current work in philosophy literary criticism and feminist thought inspired by Continental thinkers such as Friedrich Nietzsche and Jacques Derrida In this book Nancey Murphy appropriates the term to describe emerging patterns in Anglo American thought and to indicate their radical break from the thought patterns of Enlightened modernity The book examines the shift from modern to postmodern in three areas epistemology philosophy of language and metaphysics Murphy contends that whole clusters of terms in each of these disciplines have taken on new uses in the past fifty years and that these changes have radical consequences for all areas of academia especially philosophy of science philosophy of religion and ethics

Dictionary Of Modern American Philosophers John R. Shook, 2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his

or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought
