Space Power:

Measuring Space Power Marco Aliberti, Matteo Cappella, Tomas Hrozensky, 2019-08-02 This book provides an in depth investigation of the concept of space power and devises a novel conceptual framework for empirically measuring and comparing different typologies of space actors on the basis of clearly defined criteria In turn the book identifies a comprehensive set of conditions required to achieve and maintain the status of space power and explores the main political security and socio economic stakes involved Building on this basis the book conducts a comparative assessment of the major space actors the underlying aim of which is to examine Europe s relative position in the space arena and put into perspective its proclaimed goal to assert itself as a space power with all of the means and resources this would entail Given its scope the book represents a valuable and versatile tool to support European decision making and offers key insights for executives space professionals and scholars alike

Toward a Theory of Spacepower Charles D. Lutes, 2011-03-07 This volume is a product of the efforts of the Institute for National Strategic Studies Spacepower Theory Project Team which was tasked by the Department of Defense to create a theoretical framework for examining spacepower and its relationship to the achievement of national objectives The team was charged with considering the space domain in a broad and holistic way incorporating a wide range of perspectives from U S and international space actors engaged in scienti c commercial intelligence and military enterprises This collection of papers commissioned by the team serves as a starting point for continued discourse on ways to extend modify re ne and integrate a broad range of viewpoints about human initiated space activity its relationship to our globalized society and its economic political and security interactions It will equip practitioners scholars students and citizens with the historical background and conceptual framework to navigate through and assess the challenges and opportunities of an increasingly complex space environment

Spacepower United States Space Force, 2020-08-10 The inaugural Space Capstone Publication Spacepower is capstone doctrine for the United States Space Force and represents our Service s first articulation of an independent theory of spacepower This publication answers why spacepower is vital for our Nation how military spacepower is employed who military space forces are and what military space forces value In short this capstone document is the foundation of our professional body of knowledge as we forge an independent military Service committed to space operations Like all doctrine the SCP remains subject to the policies and strategies that govern its employment Military spacepower has deterrent and coercive capacities it provides independent options for National and Joint leadership but achieves its greatest potential when integrated with other forms of military power As we grow spacepower theory and doctrine we must do so in a way that fosters greater integration with the Air Force Army Navy Marine Corps and Coast Guard It is only by achieving true integration and interdependence that we can hope to unlock spacepower s full potential Agility innovation and boldness have always been the touchstone traits of military space forces Today we must harness these traits to pioneer a new Service and a new professional body of knowledge This capstone

doctrine is a point of departure toward that goal not a final adjudication Given the nascent state of spacepower theory this publication will inevitably evolve over time as it is applied evaluated and refined Therefore military space forces are encouraged to read critique debate and improve upon the ideas that follow Air & Space Power Journal sum 04 ,
