**Directing the Dance Legacy of Doris Humphrey** Lesley Main, 2012-06-04 Directing the Dance Legacy of Doris Humphrey looks inside four of Doris Humphrey s major choreographic works Water Study 1928 The Shakers 1931 With My Red Fires 1936 and Passacaglia 1938 with an eye to how directorial strategies applied in recent contemporized stagings in the United States and Europe could work across the modern and contemporary dance genre Author Lesley Main a seasoned practitioner of Doris Humphrey choreography stresses to the reader the need to balance respect for classical works from the modern dance repertory with the necessity for fresh directorial strategies to balance between traditional practices and a creative role for the reconstructor Drawing upon her own dance experience Main s book addresses an area of dance research and practice that is becoming increasingly pertinent as the dancer choreographers of the 20th century modern and contemporary dance are no longer alive to attend to the re stagings of the body of their works Insightful and thought provoking Directing the Dance Legacy of Doris Humphrey calls for the creation of new forms of directorial practice in dance beyond reconstruction The radical new practices it proposes to replace the old are sure to spark debate and fresh thinking across the dance field

**In the Circle of the Dance** Katharine Bjork Guneratne, 1999 Feeling initially aimless and out of place in rural Nepal where she accompanied her anthropologist husband for a year of fieldwork Katharine Bjork Guneratne turned to writing to make sense of her sojourn in the shadow of the Himalaya The resulting book is both an acute portrait of

a village and an intimate account of her struggles to adapt to a different way of life Like the best cultural travel narratives In the Circle of the Dance draws on the author s experiences to illuminate both exterior and interior worlds Bjork s book is in many ways a primer on the realities of fieldwork from setting up house to participating in the work of the village women to finding ways to communicate across cultural divides It describes how this outsider achieved a gradual and provisional inclusion in the community an inclusion represented by her participation in a traditional women s circle dance The book also depicts the effects of modernization and tourism on a society that remained closed to the West well into this century while offering comparative insights about wider South Asian cultures The author s lyrical frequently moving descriptions of everyday life guide her readers through the stages of her cultural apprenticeship In the end as Bjork joins the circle dance she is a stranger to the community still but a familiar and welcome one

The Dance of Death in the Middle Ages Elina Gertsman, 2010 Elina Gertsman s multifaceted study introduces readers to the imagery and texts of the Dance of Death an extraordinary subject that first emerged in western European art and literature in the late medieval era Conceived from the start as an inherently public image simultaneously intensely personal and widely accessible the medieval Dance of Death proclaimed the inevitability of death and declared the futility of human ambition Gertsman inquires into the theological socio historic literary and artistic contexts of the Dance of Death exploring it as a site of interaction between text image and beholder Pulling together a wide variety of sources and drawing attention to those images that have slipped through the cracks of the art historical canon Gertsman examines the visual textual aural pastoral and performative discourses that informed the creation and reception of the Dance of Death and proposes different modes of viewing for several paintings each of which invited the beholder to participate in an active kinesthetic experience
