The Turkic Languages and Peoples Karl Heinrich Menges, 1995 **The Turkic Languages** Lars Johanson, Éva Á. Csató, 2015-04-29 The Turkic Languages examines the modern languages within this wide ranging language family and gives an historical overview of their development The first part covers generalities providing an introduction to the grammatical traditions subgrouping and writing systems of this language family The latter part of the book focuses on descriptions of the individual languages themselves Each language description gives an overview of the language followed by detail on phonology morphology syntax lexis and dialects The language chapters are similarly structured to enable the reader to access and compare information easily Each chapter represents a self contained article written by a recognised expert in the field Suggestions are made for the most useful sources of further reading and the work is comprehensively indexed

Turkic Languages in Contact Hendrik Boeschoten, Lars Johanson, 2006 The volume contains contributions on contact induced language change in situations in which one of the languages is a Turkic one Most papers deal with cases of long standing language contact The geographic areas covered include the Balkans Macedonian Turkish Gagauz Western Europe Turkish German Turkish Dutch contacts Central Europe Karaim Turkey Turkish Kurdish Turkish Greek contacts Old Ottoman Turkish Iran Turkic Iranian contacts and Siberia Yakut Tungusic contacts The contributions focus on various phenomena of code interaction and on various types of structural changes in different contact settings Several authors employ the Code Copying Model which is presented in some detail in one of the articles **The Turkic Languages** Lars Johanson, Éva Á. Csató, 2021-12-27 The Turkic languages are spoken today in a vast geographical area stretching from southern Iran to the Arctic Ocean and from the Balkans to the great wall of China There are currently 20 literary languages in the group the most important among them being Turkish with over 70 million speakers other major languages covered include Azeri Bashkir Chuvash Gagauz Karakalpak Kazakh Kirghiz Noghay Tatar Turkmen Uyghur Uzbek Yakut Yellow Uyghur and languages of Iran and South Siberia The Turkic Languages is a reference book which brings together detailed discussions of the historical development and specialized linguistic structures and features of the languages in the Turkic family Seen from a linguistic typology point of view Turkic languages are particularly interesting because of their astonishing morphosyntactic regularity their vast geographical distribution and their great stability over time This volume builds upon a work which has already become a defining classic of Turkic language study The present thoroughly revised edition updates and augments those authoritative accounts and reflects recent and ongoing developments in the languages themselves as well as our further enhanced understanding of the relations and patterns of influence between them The result is the fruit of decades long experience in the teaching of the Turkic languages their philology and literature and also of a wealth of new insights into the linguistic phenomena and cultural interactions defining their development and use both historically and in the present day Each chapter combines modern linguistic analysis with traditional historical linguistics a uniform structure allows for easy
