Turkish Waters & Cyprus Pilot Rod Heikell, 1993 **Turkish Waters and Cyprus Pilot** Rod and Lucinda Heikell, 2018-12-31 Turkish Waters and Cyprus Pilot covers the entire coast of Turkey from the Black Sea down the Aegean coast and around to the Syrian border. The coasts, ports and marinas of the island of Cyprus are also described. There are few more beautiful cities in the world that it is possible to sail into the heart of but that is what the authors were able to do in Istanbul while researching this the tenth edition. Their research also took them south as far as Gek and to Cyprus. Much has changed with new marinas completed and more under construction but much has also stayed the same namely the warmth and hospitality of the people you encounter. This new edition includes all the latest information and marina developments with new plans and photos many of which were taken by the authors. Turkish Waters and Cyprus Pilot is considered the essential companion to sailing these waters. **Turkish Waters Pilot** Rod Heikell, 1985 [Greek Waters Pilot](#) Rod Heikell, 1990

Atlantic Crossings Les Weatheritt, 2006 The main intent of this book is to prepare the North American sailor for his first crossing of the Atlantic to Europe. It is actually so exhaustive in its coverage that it will indeed help the bluewater sailor to learn how to cross any ocean in the world. **Ocean Passages and Landfalls** Andy O'Grady, Rod Heikell, This cruising guide for ocean voyagers provides invaluable passage planning information for tried and tested routes around the world. Climates and weather patterns, currents, seasons and timings are key to selecting routes but just as important is knowing something about the countries that you will arrive in. Details of the expected formalities and regulations are followed by essential information on key landfalls accompanied by the first hand observations of well known world sailors and authors Rod Heikell and Andy O'Grady. Text and plans have been updated for this third edition which is illustrated with a number of new photographs to inspire both dreamers and passagemakers. I have recently been planning a voyage from Trinidad to New Zealand using *Ocean Passages and Landfalls* by Rod Heikell and Andy O'Grady. The book has been an exceptional resource. The mass of information on a wealth of subjects is excellent. The layout is beautifully put together and very accessible. The pilotage and chartlets will be invaluable. The book will certainly be travelling with me and I

cannot recommend it highly enough to anybody who is planning ocean voyaging Theresa Kewell S Y Mr Blue This is a blue planet book Its scope is awe inspiring as it takes an overview of the globe as the yachtsman s potential cruising ground It is of course possible to glean all the macro information from scientific geophysical sources but the personality and experience of the authors adds an indispensable ingredient Yachting Monthly **H.O.
