WRITING SMART

Your Guide to Great Writing

Does your boss need a project proposal first thing in the morning? Do you have a research paper that you're having trouble starting? Perhaps you're applying to colleges or graduate programs that require an essay or two before they'll allow you anywhere near their hallowed halls.

If the prospect of placing your fingertips on a keyboard strikes fear in your heart, worry no more. The Princeton Review has created *Writing Smart*. This book shows you how to write convincing essays, solid research papers, impressive business proposals, and even lab reports.

Writing Smart starts with the basics, like composing good sentences and paragraphs, and editing your own work. After you've got those concepts down, you'll master the big stuff: the project proposals, the professional letters, and, yes, even the dreaded application essays.

They're all easy when you're *Writing Smart*.
