The Dambusters Raid

Jonathan Falconer

The Dambusters Raid:

Dam Busters James Holland,2012-05-10 The night of May 16th 1943 Nineteen specially adapted Lancaster bombers take off from RAF Scampton in Lincolnshire each with a huge 9 000lb cylindrical bomb strapped underneath it Their mission to destroy three dams deep within the German heartland which provide the lifeblood to the industries supplying the Third Reich s war machine From the outset it was an almost impossible task a suicide mission to fly low and at night in formation over many miles of enemy occupied territory at the very limit of the Lancasters capacity and drop a new weapon that had never been tried operationally before from a precise height of just sixty feet from the water at some of the most heavily defended targets in Germany More than that the entire operation had to be put together in less than ten weeks When visionary aviation engineer Barnes Wallis s concept of the bouncing bomb was green lighted he hadn t even drawn up his plans for the weapon that was to smash the dams What followed was an incredible race against time which despite numerous setbacks and against huge odds became one of the most successful and game changing bombing raids of all time

Dambusters Douglas C. Dildy,2012-02-20 The legendary story of the Dambusters how a small squadron of RAF bombers defied the odds to carry out a highly dangerous low altitude bombing raid at night in the very heart of the Third Reich

The Complete Dambusters Charles Foster,2018-05-08 On 16 May 1943 nineteen Lancaster aircraft from the RAF s 617 Squadron set off to attack the great dams in the industrial heart of Germany Flying at a height of 60ft they dropped a series of bombs which bounced across the water and destroyed two of their targets thereby creating a legend The one off operation combined an audacious method of attack technically brilliant flying and visually spectacular results But while the story of Operation Chastise is well known most of the 133 Dambusters who took part in the Dams Raid have until now been just names on a list They came from all parts of the UK and the Commonwealth and beyond and each of them was someone s son or brother someone s husband or father This is the first book to present their individual stories and celebrate their skill heroism and for many sacrifice

The Dambuster Raid Helmuth Euler,2015 Indhold Operation Chastise the audacious RAF bombing raid that struck at the heart of industrial Germany on the 17th May 1943 brought catastrophic damage to the three dams that served the Ruhr Valley Considered from an Allied perspective the Dambuster Raid was a triumphant success not only of British engineering but also of pilot endeavour View it from the German perspective however and an entirely new story emerges

The Dambusters John Sweetman,David Coward,Gary Johnstone,2003 The Dambusters mission is of enduring fascination and appeal The breaching of the dams in Germany s industrial heartland was to have a pivotal effect on the outcome of World War II This book accompanying a TV series of the same name reveals the scientist behind the bouncing bomb and re enacts the mission

Dambusters Rebecca Lawther,2008 This magazine looks at the training of the aircrew of Bomber Command some of whom would later form No 617 Squadron the formation and development of the plan for raid on the dams how the weapon was designed and tested and how the Lancaster was adapted to carry the weapon The magazine

also focuses on several of the pilots and their crews who took part in the raid including some of those who did not make it back. The success of the Dambuster raids has been somewhat debated in the years since they took place although the bombs fulfilled their purpose and two of the dams were successfully breached the attack was costly in lives and did not have the long term effects that had been hoped on the Ruhr's industrial output. However as described in the latter chapters of this magazine it did have enormous propaganda value for the Allies.

The Dam Busters Jonathan Falconer, 2003 With a foreword by Richard Todd who played the role of Wing Commander Guy Gibson in the *Dam Busters* film this is a gripping account of one of the best known and most widely told stories of the Second World War.

Breaking the Dams Charles Foster, 2008-09-22 This is the story of the author's uncle David Maltby and the crew with whom he flew on the famous Dam Raid in 1943. Just five months later on their return from an aborted mission to bomb the Dortmund Ems Canal they all died when their aircraft went down in the North Sea. Only David's body was recovered washed ashore a day later and identified by his 18 year old sister. The author's mother David was the pilot of the fifth Lancaster J Johnny to drop a bomb on the Mhne Dam and cause the final breach in the dam. He was then just 23 years of age but already had 30 operations and a D F C to his name. This book tells the story of the crew what made them join the RAF when they knew the risk was so high how fate threw them together what it was like for one crew to take part in the raid and what happened to them in the five months between Operation Chastise and their deaths. It goes beyond the raid to look at what happened afterwards and how the families left behind were affected. Their sons brothers and fathers might have become famous but they had to cope with life and loss in the same way as did thousands of other British families.

[The Official Dambusters Experience](#) John Sweetman, 2013-04-01 The daring Dambusters raid on 17th May 1943 when a special force of British Avro Mark III Lancasters attacked and destroyed the Eder Dams in Germany was one of the iconic moments of World War II. *The Dambusters Experience* tells the story behind the attack and relives the attack itself under the leadership of Wing Commander Guy Gibson as he and his men deployed for the first time the devastating new secret weapon developed by scientist Barnes Wallis.

The Dambusters Max Hastings, 2019-09-05 A brand new history of the Dambusters raid from best selling and critically acclaimed military historian Max Hastings. Operation Chastise the destruction of the Mohne and Eder dams in north west Germany by the RAF's 617 Squadron on the night of 16/17 May 1943 was an epic that has passed into Britain's national legend. Max Hastings grew up embracing the story the classic 1955 movie and the memory of Guy Gibson the 24 year old wing commander who led the raid. In the 21st Century however he urges that we should see the dambusters in much more complex shades. The aircrew's heroism was entirely real as was the brilliance of Barnes Wallis inventor of the bouncing bombs. But commanders who promised their young fliers that success could shorten the war fantasised as ruthlessly as they did about the entire bomber offensive. Some 1 400 civilians perished in the biblical floods that swept through the Mohne valley more than half of them Russian and Polish women slave labourers. Hastings vividly describes the evolution of Wallis bomb and of the squadron which

broke the dams But he also portrays in harrowing detail those swept away by the torrents He argues that what modern Germans call the Mohnekatastrophe imposed on the Nazi war machine temporary disruption rather than a crippling blow Ironically Air Marshal Sir Arthur Bomber Harris gained much of the public credit though he bitterly opposed Chastise as a distraction from his city burning blitz Harris also made perhaps the operation s biggest mistake failure to launch a conventional attack on the huge post raid repair operation which could have transformed the impact of the dam breaches on Ruhr industry Here once again is a dramatic retake on familiar history by a master of the art Hastings sets the Dams Raid in the big picture of the bomber offensive and of the Second World War with moving portraits of the young airmen so many of whom died of Barnes Wallis the monstrous Harris the tragic Guy Gibson together with superb narrative of the action of one of the most extraordinary episodes in British history Dam Busters James Holland,2013-11-04 The story of the British made bombs Upkeep and Highball successfully dropped on Nazi dams has never been told in such depth before Daily Mail UK The night of May 16 1943 Nineteen specially adapted Lancaster bombers take off from an RAF airfield in Lincolnshire England each with a huge nine thousand pound cylindrical bomb strapped underneath it Their mission to destroy three hydroelectric dams that power the Third Reich s war machine It was a suicide mission from the outset First the men had to fly extremely low at night and in tight formation over miles of enemy occupied territory Then they had to drop with pinpoint precision a complicated spinning cylindrical bomb that had never before been used operationally More than that the entire operation had to be put together in less than ten weeks in order to hit the dams when water levels were still high enough for the bombs to be effective The visionary aviation engineer Barnes Wallis hadn t even drawn up plans for his concept when the bouncing bomb was green lighted What followed was an incredible race against time that despite numerous setbacks became one of the most successful and significant bombing raids of all time Holland has delved into the new trove of declassified documents to shed light on this weapons program the politics of its development and the eventual mission The Wall Street Journal An impeccably researched work in the style of a fast paced techno thriller Publishers Weekly Extremely detailed but never dull Holland offers a definitive nuts and bolts history Kirkus Reviews A well written study of engineering and invention operating under great pressure For all World War II history buffs Library Journal starred review **The Dambusters Raid** John Sweetman,1993 *Chastise: the Dambusters* Max Hastings,2020-05-14 THE SUNDAY TIMES BESTSELLER A masterly history of the Dambusters raid from bestselling and critically acclaimed Max Hastings **Fire and Fury** Randall Hansen,2025-05-08 Insightful rigorously researched and splendidly written Donald L Miller author of Masters of the Air During World War II Allied bombing obliterated every major German and Japanese city Before the dropping of the atomic bombs conventional bombing had killed approximately 400 000 Germans and 330 00 Japanese the vast majority civilians Two thirds of Germans who died under the bombs did so in 1944 and 1945 and in the last year of the war cities with little military were obliterated In Japan American bombers destroyed all but three major Japanese cities and the people in them after

March 1945 These raids occurred in other words when Allied victory was assured and when precision bombing techniques were far more advanced than they were earlier in the war Fire and Fury asks why Based on extensive archival sources interviews with bombing survivors airmen and published first hand accounts the book looks at the bombing campaign from an avowedly human perspective Allied German and Japanese It recreates the experience of living through the death of a city It presents the complex personalities of the senior airmen and explores why bombing campaigns that seem so excessive seventy five years later seemed reasonable to many at the time It explains why those campaigns became so murderous so late in the war And it asks with the full benefits of time s fullness whether it was all worth it Perfect for fans of Max Hastings James Holland and Antony Beevor Outstanding Margaret MacMillan author of Paris 1919 Six Months that Changed the World Clear well argued and grippingly told Keith Lowe author of Inferno The Fiery Destruction of Hamburg 1943 *How Strategic Airpower has Changed the World* Order Nigel David MacCartan-Ward,Anthony Wells,2024-06-30 This work demonstrates how maritime deterrence strategy in a challenging world is critically underpinned by strategic air power at sea and on land In this book the history and utility of land and carrier based strategic airpower is brought to life by the gallant exploits and photographs of B 17 aircraft Quittin Time and of its Navigator Fred Julian in the Second World War and by the unforgiving and unswerving dedication of Sharkey Ward and his Sea Harrier team in the Falklands war The overarching message is that the strategic airpower lessons of the past eight decades underpin the urgent need for the UK government to invest more wisely in its Fleet so that the latter may work effectively in conjunction with the US Navy on the global mission to deter those that would harm us and to maintain the freedom of passage of all shipping throughout the global commons The authors show how a maritime deterrence strategy in a challenging world is critically underpinned by strategic air power at sea and on land Dam Busters Ted Barris,2018-09-11 National Bestseller Foreword by Peter Mansbridge Barris tells the jaw dropping story of a night that changed the war The Globe and Mail It was a night that changed the Second World War The secret air raid against the hydroelectric dams of Germany s Ruhr River took years to plan involved an untried bomb and included the best aircrewmen RAF Bomber Command could muster many of them Canadian The attack marked the first time the Allies tactically took the war inside Nazi Germany It was a military operation that became legendary On May 16 1943 nineteen Lancaster bombers carrying 133 airmen took off on a night sortie code named Operation Chastise Hand picked and specially trained the Lancaster crews flew at treetop level to the industrial heartland of the Third Reich and their targets the Ruhr River dams whose massive water reservoirs powered Nazi Germany s military industrial complex Each Lancaster carried an explosive which when released just sixty feet over the reservoirs bounced like a skipping stone to the dam sank and exploded The raiders breached two dams and damaged a third The resulting torrent devastated enemy power plants factories and infrastructure a hundred miles downstream Every airmen on the raid understood that the odds of survival were low Of the nineteen outbound bombers eight did not return Operation Chastise cost the lives of fifty three airmen including

fourteen Canadians Of the sixteen RCAF men who survived seven received military decorations Based on interviews personal accounts flight logs maps and photographs of the Canadians involved Dam Busters recounts the dramatic story of these young Commonwealth bomber crews tasked with a high risk mission against an enemy prepared to defend the Fatherland to the death
