The Fear Factor:

The Fear Factor Jim McFadden, 1983-09 **Good for Nothing** Abigail Marsh, 2017-10-19 A new popular science book exploring the cutting edge science explaining human altruism and psychopathy how closely they can be mapped and how the potential to be more compassionate and kind exists in all of us If humans are fundamentally good why do we engage in acts of great cruelty If we are evil why do we sometimes help others at a cost to ourselves Whether humans are good or evil is a question that has plagued philosophers and scientists for as long as there have been philosophers and scientists Many argue that we are fundamentally selfish and only the rules and laws of our societies and our own relentless efforts of will can save us from ourselves But is this really true Abigail Marsh is a social neuroscientist who has closely studied the brains of both the worst and the best among us from children with psychopathic traits whose families live in fear of them to adult altruists who have given their own kidneys to strangers Her groundbreaking findings suggest a possibility that is more optimistic than the dominant view Humans are not good or evil but are equally and fundamentally capable of good and evil Publisher description

The Fear Factor Abigail Marsh, 2017-10-10 In this compelling scientific detective story a leading neuroscientist looks for the nature of human kindness in the brains of heroes and psychopaths Wall Street Journal At fourteen Amber could boast of killing her guinea pig threatening to burn down her home and seducing men in exchange for gifts She used the tools she had available to get what she wanted and she didn't care about the damage she inflicted A few miles away Lenny Skutnik was so concerned about the life of a drowning woman that he jumped into the ice cold river to save her How could Amber care so little about others lives while Lenny cared so much Abigail Marsh studied the brains of both psychopathic children and extreme altruists and found that the answer lies in our ability to recognize others fear And as *The Fear Factor* argues by studying people who demonstrate heroic and evil behaviors we can learn more about how human morality is coded in the brain A path breaking read *The Fear Factor* is essential for anyone seeking to understand the heights and depths of human nature

Sandy McKay, 2010 **The Fear Factor** John C. Scott, 2003-12-01 Why am I afraid Many people live a life of fear or at times in fear of things they do not understand These fears can rob a person of the joy of life and intimacy with other people and God This book does not advocate a life without fear because some fears are helpful and God given It does however set up principles and practices that can help us live a life with less fear It looks at the origins of fear and how they can be overcome Christians have a powerful resource to help them to live a life free of crippling fears Along with sound psychological principles the author also points out the power of God to help us For God did not give us a spirit of timidity but a spirit of
