The Turning Point Preston Gibson, 1910 [The Turning Point in the Gospel of Mark](#) Gregg S. Morrison, 2014-09-24
Based on linguistic and thematic links in the narrative *The Turning Point in the Gospel of Mark* argues that the twin pericopae of Peter's confession 8:27-38 and the Transfiguration 9:2-13 together function as the turning point of the Gospel and serve in a Janus-like manner enabling the reader to see the author's main focus the identity of Jesus and the significance of that reality for his disciples Peter's confession of Jesus as Messiah faces backward toward the Prologue 1:1-13 and functions as a mid-course conclusion The declaration by God on the mountain faces forward and foreshadows the end-course conclusion 14:61-62 15:39 Son of God Jesus in response teaches that the Son of Man must suffer and die before being raised from the dead 8:31 Christologically the images of Messiah Son of Man and Son of God converge and present Jesus the crucified as king ushering in the kingdom of God in power 9:1 acting as the key swivel between the twin pericopae When one is confronted with this Jesus though there remains something elusive about him and the kingdom of God in the narrative the only wise decision after calculating the costs 8:34-38 is to follow

Turning Point is a book of lessons masked and weaved among stories of pain misfortune and enlightenment It was written with the intent to bring an understanding and awareness to both our kids and the people responsible for their development It has so much to offer by way of lessons from the mentor John GMOE from the relationship fostered by their teacher Mrs Debra who demands respect without giving it back in return and through the eyes and dialogues of the students who reluctantly participate in this mentoring class It also speaks to the realities of poverty and social environmental neglect that some kids experience in their day to day lives and the huge role it plays in their unwillingness and readiness to participate properly in an organized school setting *Mining Engineers' Handbook* Robert Peele,1927 *The Illustrated American*,1895
