Standards And Assessment For Academic Libraries A Workbook:

Standards and Assessment for Academic Libraries William Neal Nelson, Robert W. Fernekes, 2002 The authors incorporate academic librarianship goals and evaluation into an outcomes assessment model based in part on the ACRL College Library Standards Topics such as planning assessment charts the library's contribution to institutional goals and communication are described *Library Assessment in Higher Education* Joseph R. Matthews, 2014-12-02 Written specifically to address the library's role in education this book provides guidance on performing assessment at academic institutions that will serve to improve teaching effectiveness and prove your library's impact on student learning outcomes and thereby demonstrate your library's value Academic libraries are increasingly being asked to demonstrate their value as one of many units on campus but determining the outcomes of an academic library within the context of its collegiate setting is challenging This book explains and clarifies the practice of assessment in academic institutions enabling library managers to better understand and explain the impact of the library on student learning outcomes teaching effectiveness and research productivity Providing essential information for all college and university librarians this volume discusses and summarizes the outcomes of research that has been conducted to investigate assessment within the context of higher education This updated second edition incorporates additional research examines new trends and covers groundbreaking advances in digital assessment tools as well as the changes in the amount and forms of data utilized in the assessment process The chapters address assessment from a campus setting and present data that demonstrate the value of the library within that setting in terms of learning research and overall impact In sum the book presents librarians with up to date practical guidelines for planning and conducting assessment

Fundamentals of Planning and Assessment for Libraries Rachel A. Fleming-May, Regina Mays, 2021-07-23 The concepts of planning and assessment are intrinsically linked and understanding them is essential for raising the library's profile and strengthening its position among stakeholders and the community Even if you're an LIS student or are new to the profession or if planning or assessment are not your primary areas of responsibility you still have a role to play in the success of organizational efforts Fleming May has more than a decade of experience in planning and assessment initiatives and instruction and Mays was her institution's first assessment librarian their primer draws from theory research and their first hand observations to illuminate such topics as characteristics of bad planning strategy that can help to illustrate a better approach reasons why using economic models like ROI fall short how to mix the three types of planning guidelines to ensure that assessment is meaningful and actionable tips for creating effective surveys emphasizing users needs with a critical assessment framework data analysis for surveys interviews focus groups and observation four questions to ask about audience level before you develop a report a sample 3 year assessment plan that can be customized and seven steps for developing a culture of ongoing assessment

Assessment and Accountability in Reference Work Susan Griswold Blandy, Lynne M. Martin, Mary L.

Strife,2019-12-05 This book first published in 1992 explores the issue of library assessment methods and the impact of accountability on the delivery of reference services It is a call for librarians to actively adopt performance measures and learn how to work with the results It analyses a wealth of assessment methods that librarians can use to collect data and create standards that are valid practical and useful in accounting for reference services Some of the methodologies described include quantitative measures qualitative measures patron surveys questionnaires interviews case studies peer review unobtrusive testing and even updating the library s policies and procedures manual as a way to evaluate services A variety of assessment methods for reference services are applied to all types of libraries Chapters in *Assessment and Accountability in Reference Work* describe how a small town library defends the relevancy of its services at a town meeting how a special library documents the value of its services to cost conscious management and how academic libraries can become involved in university and college level assessment programs Librarians seeking to develop their own assessment methods will benefit from practical advice on assessing diversity in the library and helpful suggestions for improving reference services through training workshops peer coaching and changes in organizational climate *Collection Evaluation in Academic Libraries* Karen C. Kohn,2015-06-24 Librarians have long used data to describe their collections Traditional measures have simply been inputs and outputs volumes acquired processed owned or circulated With the growth since the 1990s of cultures of assessment librarians have sought statistics that are evaluative rather than simply descriptive More recently exponentially increasing journal prices and an economic recession have intensified the need to make careful purchasing decisions and to justify these to administrators A methodical evaluation of a library collection can help librarians understand and meet user needs and can help communicate to administrators that the library is a good use of the institution s money *Collection Evaluation in Academic Libraries A Practical Guide for Librarians* equips collections managers to select and implement a method or several methods of evaluating their library collections It includes sections on four tools for evaluation Comparison to peer institutions Core lists Usage statistics from circulation and ILL Citation analysis Chapters on each of these approaches present the advantages and disadvantages of each method instructions on data collection and analysis with screenshots and suggested action steps after completing the analysis With a unique combination of step by step instructions and discussions of the purpose and role of data this book provides an unusually thorough guide to collection evaluation It will be indispensable for collection development librarians and anyone looking to strengthen the culture of assessment within the library **Resources in Education** ,1989 **Assessment and Accountability in Reference Work** Susan Griswold Blandy,Lynne M.
