Greetham, 1994 **Textual Scholarship** David Greetham, 2013-01-01 **An Introduction to Bibliographical and Textual Studies** William Proctor Williams, Craig S. Abbott, 2009 To a reader of Joyce's *Ulysses* it makes a difference whether one of Stephen Dedalus's first thoughts is *No mother* as in the printed version or *No mother* as in the manuscript The scholarship surrounding such textual differences and why this discipline should concern readers and literary scholars alike is the focus of William Proctor Williams and Craig S. Abbott's acclaimed handbook This updated fourth edition outlines the study of texts composition revision physical embodiments process of transmission and manner of reception describes how new technologies such as digital imaging and electronic tagging have changed the way we produce read preserve and research texts discusses why these matters are central to a historical understanding of literature and shows how the insights methods and products of bibliographical and textual studies can be applied to other branches of scholarship *Textual Awareness* Dirk Van

Hulle,2009-12-14 Aware of the act of writing as a temporal process many modernist authors preserved numerous manuscripts of their works which themselves thematized time Textual Awareness analyzes the writing processes in James Joyce s Finnegans Wake Marcel Proust s la recherche du temps perdu and Thomas Mann s Doktor Faustus and relates these to Anglo American French and German theories of text By relating theory to practice this comparative study reveals the links between literary and textual criticism A key issue in both textual criticism and the so called crisis of the novel is the tension between the finished and the unfinished After a theoretical examination of the relationship between genetic and textual criticism Dirk Van Hulle uses the three case studies to show how at each stage in the writing process the text still had the potential of becoming something entirely different how and why these geneses proceeded the way they did how Joyce Proust and Mann allowed contingencies to shape their work how these authors recycled the words of their critics in order to inoculate their works against them how they shaped an intertextual dimension through the processing of source texts and reading notes and how text continually generated more text Van Hulle s exploration of process sheds new light on the remarkable fact that so many modernist authors protected their manuscripts implying both the authors urge to grasp everything and their awareness of the dangers of their encyclopedic projects Textual Awareness offers new insights into the artificiality of the artifact the novel that are relevant to the study of literary modernism in general and the study of James Joyce Marcel Proust and Thomas Mann in particular Dirk Van Hulle is Assistant Professor of English and German Literature University of Antwerp

Introduction to Scholarly Editing George Thomas Tanselle,1998 *Texts and Textuality* Philip G. Cohen,2018-12-20 These essays deal with the scholarly study of the genesis transmission and editorial reconstitution of texts by exploring the connections between textual instability and textual theory interpretation and pedagogy What makes this collection unique is that each essay brings a different theoretical orientation New Historicism Poststructuralism or Feminism to bear upon a different text such as Whitman s Leaves of Grass Faulkner s The Sound and the Fury or hypertext fiction to explore the dialectical relationship between texts and textuality The essays bring some of the textual theories that compete with each other today into contact with a broad range of primarily literary textual histories That texts are intrinsically unstable frequently consisting of a series of determinate historical versions has consequences for all students of literature because different versions of a literary work frequently help shape different readings independently of the interpretations brought to bear upon them Textual instability of the works is relevant to our understanding of how the meanings of texts are generated The contributors build on the numerous challenges to the Anglo American editorial tradition mounted during the past decade by scholars as diverse as Jerome McGann D F McKenzie Peter Shillingsburg D C Greetham Hershel Parker and Hans Walter Gabler The volume contributes to the paradigm shift in textual scholarship inaugurated by these scholars Index

Textual Transgressions David Greetham,2013-10-28 Both an intellectual autobiography and a chronicle of the ideological and methodological upheaval in textual studies during the last two decades this book presents

provocative essays by one of the foremost textual scholars of our day As founder and executive director of the interdisciplinary Society for Textual Scholarship Professor Greetham has had the opportunity to observe and engage with the main players of the textual revolution during its most turbulent years and enlivens his account with revealing character sketches

The Margins of the Text David C. Greetham,1997 These essays challenge the positivist patriarchal assumptions of earlier approaches to textual criticism

Women Editing/Editing Women Chanita Goodblatt,Ann Hollinshead Hurley,2009-01-14 This collection of essays links current research in the writings and editing of early modern women and in those women who were themselves early editors with a new methodology of editing currently titled the new textualism As such the collection seeks to solve two problems The first concerns the difficulty of editing the works of early modern women writers for whom there is little biographical data a challenging task when the standard life and works format is thus inhibited Second related but slightly different occurs because although we know that there were women who edited in the early modern and even later periods we know little about them as well The new textualism approach to editing which focuses on the material properties of the manuscript or book its print or performance history and records of its dissemination and the sociology of texts provides a fruitful solution to both problems by broadening the concept of agency and hence provides a richer context for the production of a given text The collection includes two sets of essays One set has been reprinted from seminal works in the field of new textualism These include writings by recognized figures like Jerome McGann Leah Marcus and Wendy Wall among others As such that set provides background for the reading of the second a group of six original essays by scholars now working in the field of early modern women writers who directly apply aspects of the new textualism in their research The fusion of the research field of retrieving early modern women writers with the practices of new textualist editing is thus the core of this collection of essays and is illustrative of what can be achieved in the field of editing when this new approach to texts is put into practice

Kabbalistic Manuscripts and Textual Theory Daniel Abrams,2010 Kabbalistic Manuscripts and Textual Theory uncovers the unstated assumptions and expectations of scribes and scholars who fashioned editions from manuscripts of Jewish mystical literature This study offers a theory of kabbalistic textuality in which the material book the printed page no less than handwritten manuscripts serves as the site for textual dialogue between Jewish mystics of different periods and locations The refashioning of the text through the process of reading and commenting that takes place on the page in the margins and between the lines blurs the boundaries between the traditionally defined roles of author reader commentator and editor This study shows that kabbalists and academic editors reinvented the text in

their own image as part of a fluid textual process that was nothing short of transformative This book is certainly monumental offering in its seven hundred pages a wealth of documentation and distilled argument that manages to be both comprehensive in its materials and transparent in its critical insights It is rare indeed that a work of such formidable scholarship can actually be a pleasure to read and convincing in its elucidation of what are often extremely complex documentary circumstances and editorial traditions From the foreword by David Greetham **The Journal of Medieval and Early Modern Studies** ,2009 **Much Labouring** David Holdeman,1997 Explores Yeats s engagement with issues of gender and class An Introduction to Bibliographical and Textual Studies Craig S. Abbott,William Proctor Williams,2014-08-01 To a reader of Joyce s Ulysses it makes a difference whether one of Stephen Dedalus s first thoughts is No mother as in the printed version or No mother as in the manuscript The scholarship surrounding such textual differences and why this discipline should concern readers and literary scholars alike is the focus of William Proctor Williams and Craig S Abbott s acclaimed handbook This updated fourth edition outlines the study of texts composition revision physical embodiments process of transmission and manner of reception describes how new technologies such as digital imaging and electronic tagging have changed the way we produce read preserve and research texts discusses why these matters are central to a historical understanding of literature and shows how the insights methods and products of bibliographical and textual studies can be applied to other branches of scholarship **The Cursor Mundi** John J.
