intelligence from a former maid in the Clonbrony household reveals to Lady Dashfort that Lord Colambre is in fact in love with his cousin Grace Nugent To discourage the match Lady Dashfort slyly lets slip that Grace was born out of wedlock and is therefore illegitimate This is confirmed by letter by his mother who while a social climber and generally frivolous is very loving to Grace and has never told her about her parentage Colambre is heart broken and feels he can never love a woman with such a heritage He visits his family estate and discovers that his father s agents are oppressing the local peasantry and probably cheating his father as well He reveals himself to the evil agents and there is a race back to London Colambre trying to stop his father from signing documents that would ruin some of the good peasants the agent s agent trying to get the papers signed Colambre makes it back just in time to stop his father from ruining the people and he then assists his father in paying off his debts on condition that the Clonbrony family return to live in Ireland The final section concerns Colambre s love for Grace and how it is discovered that she is both legitimate and an heiress There are many turns of plot and lots of information about Ireland as well as Irish dialect and details of shallow London fashionable life and the egregious results of the propertied classes treating their Irish lands as a resource to be exploited rather than as a relationship among classes and with the land Maria Edgeworth 1 January 1768 22 May 1849 was a prolific Anglo Irish writer of adults and children s literature She was one of the first realist writers in children s literature and was a significant figure in the evolution of the novel in Europe She held advanced views for a woman of her time on estate management politics and education and corresponded with some of the leading literary and economic writers including Sir Walter Scott and David Ricardo Early life Maria Edgeworth was born at Black Bourton Oxfordshire She was the second child of Richard Lovell Edgeworth who eventually fathered 22 children by four wives and Anna Maria Edgeworth nee Elers Maria was thus an aunt of Francis Ysidro Edgeworth *The Code of Federal Regulations of the United States of America*, 1968 The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government **The Absentee - Scholar's Choice Edition** María Edgeworth, 2015-02-16 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **Documents** Boston (Mass.).
