The Available Mind:

The Available Mind Carol R. Murphy, 1974-01 **The Mind as a Scientific Object** Christina E. Erneling, David Martel Johnson, 2005 This book argues that all the cognitive science disciplines are not equally able to provide answers to ontological questions about the mind but rather that only neurophysiology and cultural psychology are suited to answer these questions **BOOK JACKET** **Attending to the Literary** Alan Singer, 2023-08-23 Attending to the Literary The Distinctiveness of Literature is a foray into current debates about the nature of the literary What is literary Is literarity a thing Are there still aesthetic standards of taste Is the category of literary aesthetics an obstacle to understanding the uses of literature What does it mean to count the reading of literature as an experience in its own right What would be the deficits to human experience without literature Attending to the Literary addresses all of these questions with a view to challenging the notion of literarity as merely representative of experience On the contrary Alan Singer shows how literarity is an enacting of experience Through close readings of an eclectic repertoire of literary sentences culled from the genres of fiction poetry and drama Singer demonstrates how syntax stages human capacities for attending ever more consequentially to the world of practical experience These stagings of forms of attention involve readers in the drama of reason giving and expand the possibilities of rational imagination Attending to the Literary speaks to a broad audience of readers for whom the question Does literature matter remains an urgent intellectual challenge **Science and Health with Key to the Scriptures** Mary Baker Eddy, 2022-11-13 In her seminal work Science and Health with Key to the Scriptures Mary Baker Eddy presents a profound synthesis of spiritual insight and healing practice Written in a clear accessible style the book intertwines Christianity with a distinctly metaphysical interpretation of the Bible advocating for the idea that reality is fundamentally spiritual and governed by divine law Eddy emphasizes the correlation between thought and health proposing that understanding this connection is key to physical and mental well being The work s innovative approach to Christian Science not only reflects the theological debates of the 19th century but also pioneers a holistic perspective on health that continues to resonate today Mary Baker Eddy a prominent spiritual leader and the founder of Christian Science wrote this book following her personal struggle with illness and a transformative healing experience Her background as a deeply religious woman influenced her exploration of scriptural teachings and their application to everyday life Eddy s passionate pursuit of spiritual truth fueled by her desire to alleviate suffering inspired the creation of this text which has served as a foundational guide for countless seekers of faith and healing Science and Health with Key to the Scriptures is a must read for anyone interested in the intersection of spirituality and health Eddy s insights empower readers to rethink conventional notions of medicine and illness urging them to explore the spiritual roots of well being This work not only provides a compelling theological framework but also offers practical guidance making it an indispensable resource for both spiritual seekers and those on a quest for holistic healing **Restoring Humane Values to Medicine** John Miles Little, 2003 Does reading

poetry make you a better clinician Can euthanasia be understood in terms of the meaning of a life What is the moral and existential significance of life threatening experiences Australian surgeon poet philosopher and humanist Miles Little addresses these and other fascinating questions in this collection of papers Miles Little is one of the most original and engaging voices in contemporary medical ethics and philosophy He ranges across the sciences and the humanities creating hybrid fields of inquiry ethnomics interrogating orthodoxies and engaging different fields of human knowledge and experience The papers in this collection were chosen by his readers who also engage here with Miles Little s work in a short commentary that follows each paper The range of the commentators reflects the breadth of Little s appeal and influence academics and clinicians philosophers and ethicists novelists public health practitioners and cancer survivors each reflects agrees or disagrees Like Little s work itself this Reader is an open and unfolding dialogue that includes many different perspectives Commentators include Murray Bail Robin Downie Nancy Dubler Stan Goulston Jill Gordon Paul Komesaroff Steve Leeder Paul McNeill Gavin Mooney and Bernadette Tobin
