**What is Present Reality** Vipin Gupta, 2021-02-16 What is present reality is an incredibly profound but

straightforward exposition of the limits of science Every scientist wishes that someone will falsify the world crafted using the present body of scientific methods one day One such world comprises the manifold versions of relativity theories measuring  $E = mc^2$  Suppose one deified scientist had not mathematically derived the value of energy in this way In that case today s scientists will not bind their understanding to the light serviced by the deified leader scientist traded and squared by them as a devoted follower Evidently when one conceives energy as  $mc^2$  its value without the presence of the leader deity is zero This landmark work grounded in India s ancient cultural metaphysics challenges the present reality of what we know and believe to be true whether about divinity or spirituality or the universe of objects or subjects or us as a person A unique feature is the precise quantification of the lightless energies of both the present reality as well as the varying paradigms and doctrines working on modifying that It is a part of a series of twelve books that democratizes the ability to understand our present reality beyond those who are experts in modern science and use this understanding for personal as well as societal well being The beta reviewers note This is unbelievable work that would change the way life is seen and lived and Looking forward to this being a massive success Dr Vipin Gupta has a Ph D in managerial science and applied economics from the Wharton School of the University of Pennsylvania He is a gold medalist from the Post graduate Program of the Indian Institute of Management Ahmedabad India He is a Professor of sensible management and appropriate science at the Jack H Brown College of Business and Public Administration California State University San Bernardino USA
