The Art Of Magic:

The Art of Magic Carl Waldman, Joseph Layden, Jamy Ian Swiss, 1997 Presents a history of magic from the necromancy and alchemy of the ancient Egyptians to the Las Vegas and television performers of the late twentieth century [The Art of Magic](#) Thomas Nelson Downs, 1921 **The Art of Magic** T. Nelson Downs, 1987-06 Indispensable book for magicians containing many methods and sleights not found in other standard books 68 illustrations **The Art of Magic** Thomas Nelson Downs, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1921 edition Excerpt CHAPTER VI CARD TRICKS BASED ON A NEW AND ORIGINAL SYSTEM OF LOCATING A CHOSEN CARD In this chapter we shall describe a series of sleights by which a chosen card may be located in the pack without the use of the shift or without resorting to any of the multifarious and conventional devices employed by magicians to obtain knowledge of a card that has been sighted or selected by a spectator This new and original system of subterfuge is the invention of T Nelson Downs who has built upon the basic idea a superstructure of subtle and bewildering illusions with cards that will appeal particularly to the devotee of sleight of hand These tricks are susceptible to development and variation and in the hands of an adroit performer and clever talker will furnish adequate material for a thirty minute act The experiments form an ideal card combination for club work or for an impromptu performance in the home hotel or newspaper office in that no preparation is required and any cards may be used The performer however will soon discover that the best results are obtained by the use of a new or comparatively new pack of cards Equipped with such a pack and with a small table or stand of any kind the student assuming that he possesses the requisite skill will be able not only to mystify the uninitiated but also to baffle those who may have a knowledge of sleight of hand So much for the intrinsic merits of this new system of deception It is more to the purpose to present a brief description of the effects obtained by the various subterfuges The performer removes a pack of new cards from its case and wrapper and offers the same to a spectator for shuffling This preliminary duty performed the conjurer holding the pack downward in *The Art of Magic (Classic Reprint)* T. Nelson Downs, 2017-06-09 Excerpt from The Art of Magic Magic has undergone many changes in the last quarter of a century The devotees of the art have gone from one extreme to the other from the simplicity of the school of Frickell to the cumbersome stage setting of Anderson and from Anderson to Frickell again The last decade was devoted to manipulation and specialization Kings and emperors and dukes and panjam drums of cards and coins monarchs of eggs and handkerchiefs czars of cabbages and billiard balls sprung up like mushrooms Magic degenerated into a Mere juggling performance Dexterity was paramount and the psychological side of the art neglected Mind gave way to matter The conjurer aimed at novelty rather than entertainment He worked in one To employ the ver nacular of the stage And in most instances gave a silent act Of course there were exceptions A few a very few performers presented a really artistic act with cards and coins but as each clever performer had a host of bungling imitators

the profession became overcrowded and vaudeville managers were net in when An engagement seeking magician sent in his card About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

NELSON. DOWNS, 2018 *The Art of Magic* Stodare (Colonel), 1866 **The Art of Magic** T. Downs, 2016-02-19 An excerpt from the INTRODUCTORY For the purpose of this book it will be convenient to divide magic into three branches manual dexterity mental subtleties and the surprising results produced by a judicious and artistic blending of the second and third branches There are other branches to be sure but they are of little interest to modern students of the magic art A century ago and indeed as late as Robert Houdin s day a general knowledge of the physical sciences was considered necessary to the equipment of the conjurer or magician and the old writers on magic filled their pages with clumsy experiments in chemistry physics mechanics and mathematics In order to be an original conjurer of the first magnitude said Robert Houdin it is necessary to have more than a speaking acquaintance with the sciences so as to apply their principles to the invention of illusions and stage tricks Houdin himself utilized chemistry optics and physics while many of his greatest and most successful illusions were based on the then little known science of electricity Things have changed since Houdin s day however and the art he practiced has taken many forward strides toward the goal of perfection The modern conjurer is little inclined to base his magical effects on the expedients of physical science but rather places his reliance on neatness of manipulation on ingenious and interesting patter and on a dexterity which in many cases seems to have been raised to its Nth power It was the Father of Modern Conjuring who laid down this admirable rule To succeed as a conjurer three things are essential first dexterity second dexterity and third dexterity Would not Robert Houdin open his eyes in amazement could he return to earth and remark the advance made in dexterity and manipulation since his day I myself practiced palming long and perseveringly he tells us in his monumental work on conjuring and acquired there at a very considerable degree of skill I used to be able to palm two five franc pieces at once the hand nevertheless remaining as freely open as though it held nothing whatever He is a

very ordinary performer who in this age cannot conceal a dozen or fifteen coins in his hand and pluck them singly from the palm to produce in a fan at the finger tips and there are several specialists in coin manipulation who experience no difficulty in handling a larger number of coins thinking nothing for instance of concealing from thirty five to forty coins in the hand and what is even more remarkable executing the pass with this unstable stack as easily and indetectably as if they were handling three or four half dollars Magic has undergone many changes in the last quarter of a century The devotees of the art have gone from one extreme to the other from the simplicity of the school of Frickell to the cumbersome stage setting of Anderson and from Anderson to Frickell again The last decade was devoted to manipulation and specialization Kings and emperors and dukes and panjamdrums of cards and coins monarchs of eggs and handkerchiefs czars of cabbages and billiard balls sprung up like mushrooms **Our Magic** John Nevil Maskelyne, David Devant, 1946
