Reconsideration of Science and Technology III Liu Dachun,Yang Huili,Fan Shanshan,2022-09-30 Drawing on debates from traditional and postmodern thoughts on science and technology the title builds a new theoretical framework to reconsider science and technology integrating the opposing viewpoints that either justify science or negate it As the third volume of a three volume set that proposes to reconsider science and technology and explores how the philosophy of science and technology responds to an ever changing world this final volume seeks to restore the cultural implications of science Across the six chapters the authors probe the prospect of a pluralistic scientific culture including discussions of diversified value choices the tension between reason and unreason other binary characteristics of scientific knowledge including objectivity and uniqueness universality and locality as well as the loss awakening and reconstruction of scientific culture The authors call for a transformation of scientific culture from a dominant culture to an affirmative one and envision a free and open world of science and technology The volume will appeal to scholars and students interested in the philosophy of science and technology the ideology of scientism and anti scientism modernism and postmodernism Marxist philosophy and topics related to scientific culture

Methodological Practices in Social Movement Research Donatella della Porta,2014-09-25 Social movement studies have grown enormously in the last few decades spreading from sociology and political science to other fields of knowledge as varied as geography history anthropology psychology economics law and others With the growing interest in the field there has been also an increasing need for methodological guidance for empirical research This volume addresses this need by introducing the main methods of data collection and data analysis as

they have been used in past research on social movements Unlike other volumes the book offers a practical how to approach and not simply a review of the methodological literature Each author writes on a method they are very familiar with having used it extensively in their own work And each chapter presents specific discussions on every stage of research from research design to data collection and the use of the information gathered Throughout research dilemmas and choices are presented illustrated and discussed The volume offers an essential point of references for anyone undertaking research on social movements
