**The Caribbean Novel since 1945** Michael Niblett, 2012-02-16 *The Caribbean Novel since 1945* offers a comparative analysis of fiction from across the pan Caribbean exploring the relationship between literary form cultural practice and the nation state Engaging with the historical and political impact of capitalist imperialism decolonization class struggle ethnic conflict and gender relations it considers the ways in which Caribbean authors have sought to rethink and re-narrate the traumatic past and often problematic postcolonial present of the region's peoples It pays particular attention to the role cultural practices such as stick fighting and Carnival as well as religious rituals and beliefs like Vodou and Myal have played in efforts to reshape the novel form In so doing it provides an original perspective on the importance of these practices with their emphasis on bodily movement to the development of new philosophies of history Beginning in the post WWII period when optimism surrounding the possibility of social and political change was at a peak

The Caribbean Novel since 1945 interrogates the trajectories of various national projects through to the present. It explores how the textual histories of common motifs in Caribbean writing have functioned to encode the fluctuating fortunes of different political dispensations. The scope of the analysis is varied and comprehensive, covering both critically acclaimed and lesser known authors from the Anglophone, Francophone, and Hispanophone traditions. These include Jacques Roumain, Sam Selvon, Marie Chauvet, Luis Rafael Sánchez, Earl Lovelace, Patrick Chamoiseau, Erna Brodber, Wilson Harris, Shani Mootoo, Oonya Kempadoo, Ernest Moutoussamy, and Pedro Juan Gutiérrez. Mixing detailed analysis of key texts with wider surveys of significant trends, this book emphasizes the continuing significance of representations of the nation-state to literary articulations of resistance to the imperialist logic of global capital.

**Mapping The Faerie Queene** Wayne Erickson, 2013-10-28. This book analyzes the Faerie Queene's setting, examining Spenser's quest structures and his ideas about epic romance and history. Critics almost invariably treat Spenser's Faeryland as coextensive with the world of the poem, but this is not the case; rather, Faeryland is part of an epic cosmos reaching from heaven and the abode of the classical deities to demonic underground realms. Spenser situates Faeryland within a specific spatial and temporal terrestrial geography in which locations outside Faeryland represent various heroic settings in political history. The politico-historical world built around Faeryland is ripe for analysis by contemporary historicist critics. Spenser uses political geography in conjunction with the time-inclusive medium of Faeryland to coordinate several transhistorical quests that create a pattern of temporal mediations among sixth-century British, 16th-century English, and biblical and prophetic versions of history. He juxtaposes chronicle, history, empirical historiography, and cultural myth while manipulating genre to create a world capable of accommodating his grand romantic epic design. In mapping the world of *The Faerie Queene*, the book provides a widened context for Spenser's quest structures, a significant contribution to the study of the poem's relation to history, and a new perspective from which to view Spenser's debts to classical epic, Italian romantic epic, and his native medieval inheritance.

*Creases in Culture* Dennis Patrick Slattery, 2014-01-15. This collection of essays, written over a period of years, entertains the shared place of psyche and poetics. Dr. Slattery has explored the manner in which the psyche is poetic and how poetry is deeply psycho-mythical. Influenced in part by the archetypal psychologist James Hillman's idea of the poetic basis of mind that comprises the soul's foundation, Slattery's writing moves into the interactive field in which myth is the ground for both psyche and poetry. The essays develop a further understanding of what has been called mythopoiesis, the fundamental myth-making and shaping capacity of the soul.

**MEDINFO 2023 — The Future Is Accessible** Jen Bichel-Findlay, Paula Otero, Philip Scott, Elaine Huesing, 2024-04-15. Science fiction author William Gibson is famously quoted as saying, "The future is already here; it's just not very evenly distributed." During the COVID pandemic, telehealth and remote monitoring were elevated from interesting innovations to essential tools in many healthcare systems, but not all countries had the infrastructure necessary to pivot quickly, amply demonstrating the negative consequences of the digital divide. This book

presents the proceedings of MedInfo 2023 the 19th World Congress on Medical and Health Informatics held from 8-12 July 2023 in Sydney Australia. This series of biennial conferences provides a platform for the discussion of applied approaches to data, information, knowledge, and wisdom in health and wellness. The theme and title of MedInfo 2023 was "The Future is Accessible, but the Digital Divide is a Major Concern for Health and Care Informatics Professionals." Whether because of global economic disparities, digital literacy gaps, or limited access to reliable information about health, a total of 935 submissions were received for the conference, of which 228 full papers, 43 student papers, and 117 posters were accepted following a thorough peer review process involving 279 reviewers. Topics covered include information and knowledge management, quality, safety, and outcomes, health data science, human, organizational, and social aspects, and global health informatics. Significant advances in artificial intelligence, machine learning, augmented reality, virtual reality, and genomics hold great hope for future healthcare planning, delivery, management, education, evaluation, and research, and this book will be of interest to all those working to not only exploit the benefits of these technologies but also to identify ways to overcome their associated challenges.

**The Philological Review**, 2018

St. Augustine Wayne Cristaudo, Heung Wah Wong, 2010. If the defining feature of the Middle Ages is its churches, the defining architect of its mind, heart, and soul, at least until Aquinas, is St. Augustine. The Church was the spiritual army whose leaders were its fathers. And in that sense, Augustine's thought is closer in modern terms to a revolutionary like Lenin than it is to a philosopher's. A philosopher may well be part of a broad movement, but his appeal is usually to first principles rather than to a body of faith, even if once philosophies are entrenched, very questionable first principles easily become matters of faith, and the collection of a philosopher's members form a kind of church. This collection examines Augustine's core ideas and brings scholars from the USA, EU, Australia, and Asia.

**The Novel** Franco Moretti, 2006. Nearly as global in its ambition and sweep as its subject, Franco Moretti's *The Novel* is a watershed event in the understanding of the first truly planetary literary form. A translated selection from the epic five-volume Italian *Il Romanzo* (2001, 2003), *The Novel*'s two volumes are a unified, multi-authored reference work containing more than one hundred specially commissioned essays by leading contemporary critics from around the world. Providing the first international comparative reassessment of the novel, these essential volumes reveal the form in unprecedented depth and breadth as a great cultural, social, and human phenomenon that stretches from the ancient Greeks to today, where modernity itself is unimaginable without the genre. By viewing the novel as much more than an aesthetic form, this landmark collection demonstrates how the genre has transformed human emotions and behavior and the very perception of reality. Historical, statistical, and formal analyses show the novel as a complex literary system in which new forms proliferate in every period and place. Volume 2: Forms and Themes.

views the novel primarily from the inside examining its many formal arrangements and recurrent thematic manifestations and looking at the plurality of the genre and its lineages Publisher **Graduate School Series** University of North Carolina (1793-1962),1925 **Journal of Theological Studies** ,1924 **The Kalevala and the World's Traditional Epics** Lauri Honko,2002 On the occasion of the 150th anniversary of the New Kalevala thirty experts on comparative epic research from 12 countries met in Turku Finland in August 1999 to debate the role of the Finnish national epic and its scientific significance As material for comparison they used textualised epics from Europe and epic traditions some of them still preserved in oral form from America Africa Central and Southern Asia A special look was taken at the Baltic Finnish and Baltic epics the Kalevala the Kalevipoeg the setu Peko and the Lativan Lacplešis which all share certain ideological strands The cooperation between fieldworkers documenting living oral epics and textual analysts utilizing old texts and archive sources sets the tone of the articles of this volume which brings the singer of epics and his her cultural world closer to the modern editors and publishers of epics The paradox of oral performance in writing is brought one step nearer to its optimal solution
