### **Tom Swift His 3d Telejector:**

12 Tom Swift and the High Space L-Evator (HB) Victor Appleton II, 2014-04-27 Within weeks of putting his outpost in space into geosynchronous orbit Tom got it into his mind to build a bigger station farther out in an orbit where it will be safe from space debris and where he can have much more room for everything he hopes to accomplish in space A combination of attacks and events on him and his company make it look like a necessity and much sooner than he would have imagined But what can he do to get around the logistical nightmare such an undertaking will bring An elevator from the ground straight up into space has been a dream of writers and engineers for more than a century Tom puts development of a space elevator on the front burner at Swift Enterprises His only hope is that it is actually possible 22-Tom Swift and His SeaSpace HydroFarm (HB) Victor Appleton II, **15-Tom Swift and the Yesterday Machine (HB)** Victor Appleton II, 2015-12-08 The 15th novel in the New TOM SWIFT Invention Adventures Just two years ago Tom Swift and his best friend Bud Barclay journeyed through a wormhole and nearly lost their lives investigating a black hole After returning Tom sent an unmanned probe back there to keep an eye on things The time has come to replace it But when he does the first videos sent back reveal something so startling that Tom isn't certain what to believe The probe shows him something Tom knows had to be in the past What might it mean The first thought he has is some sort of time fluctuation has occurred He is hesitant to refer to it as time travel But what if that is exactly what it is Is it something that can be replicated and used on Earth Or can the source of the phenomena be taken from its location back to Earth Tom can only imagine the possibilities and sets out testing in until a personal tragedy forces him to try something radical **13—Tom Swift and the IntraEarth Invaders (HB)** Victor Appleton II, 2014-09-19 In this hardbound edition of the 13th novel in the New Tom Swift Invention Series the young inventor is called down to Helium City to investigate strange noises that seem to be coming up from deep within the wells themselves This should be impossible because there are several miles of near absolute zero liquid helium down there Several probes not only fail to find anything at least one is attacked and lost So Tom and his best friend Bud Barclay undertake the dangerous mission to go down into the well to find out what is really going on When that trip turns to near disaster it is time to call in reinforcements This comes in the form of an old friend who not only knows the truth must be discovered he believes that it must be stopped at any cost **Tom Swift and the Cometary Reclamation** Thomas Hudson & Leo II, 2014-11-26 In this hardbound second installment of the Lunar Trilogy Tom Swift and the Space Battering Ram was part 1 an environmental disaster hits California at the same time the lunar colony now free of the tyranny of the Masters is facing a crisis of their own and it seems a single solution needs to be found for both At the same time Harlan Ames ventures to Tibet in search of answers about the Empress and where she might have crashed her evacuation spacecraft What he finds will turn his world on end and nearly ruin the now free colony on the Moon With his own troubles Tom must find a way to mine water from a passing comet and bring it to the Moon and down to the Earth safely and quickly before people start to die As it is people are

leaving the state as if it is becoming a new dustbowl The inhabitants of the lunar colony don t have that luxury Will Harlan s search and Tom s projects succeed Or with they intersect with disastrous consequences

**16-Tom Swift and the Reconstructed Planet (HB)** Victor Appleton II,2016-05-06 In this hardbound edition of Tom s 16th adventure in this series he finds out that a newly classified exo planet outside Pluto s orbit is about to have a close encounter with the return of Haley s Comet The problem is that at such distances nobody can tell just how close A visit to the Planet Eris is called for but he must first devise a ay to travel faster than he ever has before so the trip can be accomplished before the pass by What he comes up with astounds even his father and that takes a lot Tom Bud and their crew arrive in time to witness a catastrophic collision that begins the slow and inevitable break up of the planet But trouble is brewing as calculations show some of the debris will eventually drift in and possibly collide with Mars and the Earth What to do Nobody has ever tried to put an entire planet back together This is a Humpty Dumpty exercise of planetary proportions
