Tone Poems, Series 1 Richard Strauss, 1979 *Tone Poems* Tony Thorpe, 2022-11-28 The collected poetry of Rubette Tony Thorpe **William Bay Trumpet Anthology** William Bay, 2023-01-30 This is a collection of 155 solos for trumpet cornet or flugelhorn Ninety one were recorded on various trumpets 37 were recorded on cornet and 27 on flugelhorn One hundred and fourteen are original compositions and the remaining 41 are arrangements on favorite hymns and sacred songs A warm up study is also included This compilation comprises 6 books Trumpet Chants Trumpet Tone Poems Trumpet Ballads and Waltzes Trumpet Partitas Soliloquies for Flugelhorn Trumpet or Cornet and Hymns for Unaccompanied Trumpet Many of the pieces have been revised and new ones have been added Each book was recorded with a different instrument although Trumpet Ballads and Waltzes and Trumpet Partitas were both recorded with a cornet However a different mouthpiece was used for each of those two recordings thus giving each a slightly different sound Both the instrument and the mouthpiece used are noted on the title page of each section Most of the selections are aimed at developing tone and lyricism on the trumpet However Trumpet Partitas definitely addresses technical issues There is a wealth of music in this collection and it will add much to trumpet practice and performance repertoire Includes access to an online recording of the author performing each of the 155 solos The Symphonic Poem in Britain, 1850-1950 Michael Allis, Paul Watt, 2020 The Symphonic Poem in Britain 1850 1950 aims to raise the status of the genre generally and in Britain specifically The volume reaffirms British composers confidence in dealing with literary texts and takes advantage of the contributors interdisciplinary expertise by situating discussions of the tone poem in Britain in a variety of historical analytical and cultural contexts This book highlights some of the continental models that influenced British composers and identifies a range of issues related to perceptions of the genre Richard Strauss became an important figure in Britain during this time not only in terms of the clear impact of his tone poems but the debates over their value and even their ethics A focus on French orchestral music in Britain represents a welcome addition to scholarly debate and links to issues in several other chapters The historical development of the genre the impact of compositional models issues highlighted in critical reception as well as programming strategies all contribute to a richer understanding of the symphonic poem in Britain Works by British composers discussed in more detail include William Wallace s Villon 1909 Gustav Holst s Beni Mora 1909 10 Hubert Parry s From Death to Life 1914 John Ireland s Mai Dun 1921 and Frank Bridge s orchestral poems 1903 15 **Frederick Delius** Mary Christison Huismann, 2012-07-26 Frederick Delius is among the most celebrated English composers of the 20th century Widely studied and performed his works are considered models of the British impressionist school and continue to fascinate students and scholars centuries later This research guide serves as a ready reference for students and scholars but will also be interesting to read and useful for anyone who wants to know where to begin to learn more about this important composer Also sprach Zarathustra John Williamson, 1993-04 Richard Strauss s tone poem Also sprach Zarathustra is one of his most

controversial works Its greatest popularity has been achieved when its connection with Nietzsche's book of the same name has seemed less relevant than its associations with Kubrick's film 2001 A Space Odyssey Although its early critical reception was mixed it is nowadays one of the staples of the virtuoso orchestra and a standard demonstration piece for innovations in recording technique Its opening bars have become a kind of icon independent of the rest of the work This guide examines the intellectual background of the work and considers ways in which it has been received by composers and writers notably Romain Rolland and Bartok It also discusses the musical background of Liszt and Wagner which gave rise to the genre tone poem and provides an analysis of several aspects of Strauss's musical language *Jacobs' Orchestra Monthly* ,1923

Texts Siglind Bruhn,2008 Among the possible relationships between art forms that express themselves in different sign systems the pairing of words and images is the one that is most thoroughly explored And in fact the most securely established terminology is found in a field that has experienced a significant revival in recent years ekphrasis The literary topos through which a poem or any other text addresses itself to the visual arts has received much attention in recent years and been subjected to intense scrutiny BOOK JACKET **Musical News** ,1906 **Jean Sibelius** Tomi Mäkelä,2011 Mäkelä's study brings together German Nordic and Anglo American work on Sibelius and synthesizes these various strands of Sibelius reception into a single coherent critical narrative This acclaimed study available in English for the first time looks at the music of Jean Sibelius in its biographical context Myths have surrounded Sibelius 1865 1957 and his work for more than 100 years often diverting attention away from his creative output Drawing on many unpublished sources Mäkelä's study leads us back to Sibelius as a musician and a poet of universal validity Chapters examine the composer's creativity inspiration influence aspects of genre as well as the relationship of the artist with nature and homeland Those who knew Sibelius at an early age tell of a youthful bohemian in the midst of European decadence This age of Carmen Eduard Munch marked Sibelius's formative years The composer's most important works dating from a time between his third symphony and Tapiola reflect the modernistic mainstream Sibelius's last three decades known as the Silence of Ainola have inspired the masculine clichés that this book deconstructs Sibelius was one of the least political artists of his time who nevertheless became heavily politicized The first supreme musical talent in the region he gave his nation a genuine sound Europeans of the late nineteenth century showed increasing affinity with Nordic culture Aino Sibelius's wife was instrumental in creating the image of her husband as a Nordic icon The book closely scrutinizes this popular image In an Anglo American artistic context his mix of regionalism and modernity remained attractive even when these elements went out of fashion in the art movement of continental Europe Ideas of Finland and the North vastly influenced the interpretation of meaning in Sibelius's music a

music that until this day remains enigmatic
