**Ethical Artificial Intelligence in Power Electronics** Tarandeep Kaur Bhatia, Salma El Hajjami, Keshav Kaushik, Gayo Diallo, Mariya Ouaisa, Inam Ullah Khan, 2024-08-01 This book focuses on the techniques of artificial intelligence that are mainly used in the power electronics field for the optimization of lost vehicle power. With the intention of optimizing the powerful energy of the vehicles and producing reliable energy, the most efficient methods, algorithms, and strategies of ethical artificial intelligence (AI) are being applied. By employing machine learning methods, the optimization of power energy in vehicles can be quickly recovered and managed efficiently. In today's bustling world, power energy is indispensable for progress, yet in congested Vehicular Ad hoc Networks (VANETs), vehicles often face power depletion and decreased efficiency. This book explores these challenges encompassing not only power but also other critical power electronics within vehicles. We aim to introduce innovative approaches leveraging ethical AI methods to optimize energy performance in the face of these difficulties. Through this exploration, we seek to provide practical insights into navigating congested VANET environments while upholding ethical principles in technological advancements. Our book will discuss the current power energy concerns faced by vehicles and also contribute a novel strategy to overcome those concerns. The employment of ethical AI in vehicular power energy will undoubtedly improve the effectiveness and production of vehicles. Current and Emerging Trends in Aging and Work Sara J. Czaja, Joseph Sharit, Jacquelyn B. James, 2019-09-13 This timely volume provides an up-to-date and comprehensive summary about what is known about aging and work and addresses the challenges and opportunities confronting older workers and organizations. The authors describe current and emerging topics related to work and aging adults, such as working in teams, the increasing diversity of the labor force, work and caregiving, the implications of technology for an aging workforce, and health and wellness issues. The authorship is international; the authors are renowned for their respective work in the topical areas and represent a broad range of disciplines within academia, as well as offer perspectives from government and policy. Jobs, organizations, the labor market, and the workforce are experiencing dramatic change. Workers of all ages, including older workers, need to interact with the wide variety of ubiquitous technologies that are reshaping work processes, job content, work settings, communication strategies, and the delivery of training, and this book aims to update readers on the particular issues facing today's aging adults in the workplace. The chapters' broad and inclusive scope encompasses Workplace aging and jobs in the 21st century, The retirement income security outlook for older workers, Population aging, age discrimination, and age discrimination protections, Older workers and the contemporary labor market, The role of aging, age diversity, and age heterogeneity within teams, The intersection of family caregiving and work. Current and Emerging Trends in Aging and Work is relevant to a broad audience of academic researchers, practitioners, and students in psychology, sociology, management, engineering, industrial and human factors, the health sciences, gerontology, geriatrics, and public health. It is also a useful resource for government and policy leaders, as well as workers and managers in the

public and private sectors      The Future of Work: Exploring Emerging Trends and Transformations Charles Nehme , The Future of Work Welcome to The Future of Work a book that explores the profound transformations taking place in the world of work and their implications for individuals organizations and society as a whole As we stand at the threshold of a new era the traditional notions of work careers and employment are being challenged and redefined This book aims to provide insights analysis and guidance to navigate this ever evolving landscape The nature of work has always been subject to change From the agricultural revolution to the industrial revolution each epoch has brought about significant shifts in how we work where we work and the skills required to thrive However the pace of change in the modern era is unprecedented Technological advancements globalization demographic shifts and societal expectations are converging to reshape the very fabric of work Automation and artificial intelligence once confined to science fiction are now becoming a reality Robots and algorithms are taking over routine tasks freeing up humans to focus on higher order cognitive activities While this promises increased productivity and efficiency it also raises concerns about job displacement and the need for upskilling and reskilling Moreover the gig economy is on the rise with freelancers independent contractors and on demand workers reshaping the employment landscape Flexible work arrangements and remote work have become the new norm enabled by digital connectivity and collaboration tools This shift not only offers individuals greater autonomy and work life balance but also challenges traditional notions of job security and the social contract between employers and employees The future of work is not just about technology and new work arrangements It is about the human dimension the skills mindsets and values that will define success in the years to come In an era of constant change adaptability creativity and continuous learning will be critical The ability to navigate ambiguity collaborate across boundaries and cultivate empathy and emotional intelligence will become essential This book will explore these themes and more It will delve into the emerging trends challenges and opportunities in the future of work drawing upon research case studies and expert perspectives It will provide practical insights and strategies for individuals and organizations to thrive in this rapidly evolving landscape Whether you are a student a professional a business leader or someone simply curious about the future of work this book aims to equip you with the knowledge and tools to navigate the uncertainties and seize the opportunities that lie ahead It is an invitation to join the conversation challenge assumptions and shape the future of work in a way that is inclusive human centered and sustainable So let us embark on this journey together and explore the exciting possibilities and complexities of the future of work The future is not something that happens to us it is something we create Together we can shape a future of work that is empowering fulfilling and meaningful for all Charles Nehme      **International conference on Navigating the Digital**

**Revolution : Embracing technology for business growth in global perspectives ICNDRGB - 2025**
