China in Revolution Mark Selden, 1995-03-21 Originally published in the early 1970s this critical edition revisits the central themes of the book and reconsiders them in the light of major new theoretical and documentary understandings of the Chinese communist revolution The Yenan Way in Revolutionary China Mark Selden, 1971 **China in Revolution** Mark Selden, 1995 States and Social Revolutions Theda Skocpol, 2015-09-29 State structures international forces and class relations Theda Skocpol shows how all three combine to explain the origins and accomplishments of social revolutionary transformations Social revolutions have been rare but undeniably of enormous importance in modern world history States and Social Revolutions provides a new frame of reference for analyzing the causes the conflicts and the outcomes of such revolutions It develops a rigorous comparative historical analysis of three major cases the French Revolution of 1787 through the early 1800s the Russian Revolution of 1917 through the 1930s and the Chinese Revolution of 1911 through the 1960s Believing that existing theories of revolution both Marxist and non Marxist are inadequate to explain the actual historical patterns of revolutions Skocpol urges us to adopt fresh perspectives Above all she maintains that states conceived as administrative and coercive organizations potentially autonomous from class controls and interests must be made central to explanations of revolutions **The Yenan Way** Eudocio Ravines, 1972 Problems of Communism, 1952 **The American Mercury**, 1952 *The Yenan Way*, by Eudocio Ravines Eudocio Ravines, 1951 U.S.A., 1954 **The Long March to Power** James Pinckney Harrison, 1972 *Asian Studies*, 1966 *Defender Magazine*, 1953 **The Long March to Power** James P. Onate, 1979 **Technos**, 1978 **Mariátegui and Latin American Marxist Theory** Marc Becker, 1993 Jos Carlos Mari tegui the Peruvian political theorist of the 1920s was instrumental in developing an indigenous Latin American revolutionary Marxist theory He rejected a rigid orthodox interpretation of Marxism and applied his own creative elements which he believed could move a society to revolutionary action without the society having to depend upon more traditional economic factors His interpretation of Peruvian history had a profound effect upon subsequent social movements throughout Latin America This volume reviews the essential elements of Mari tegui s thought and important influences on his intellectual development It demonstrates the role he played in defining a Latin American identity the nature of his intellectual contribution to the development of indigenous revolutionary movements in Latin America and the influence he had on successful revolutionary movements in Cuba and Nicaragua An understanding of Mari tegui s thought is fundamental to understanding the nature of revolutionary changes in Latin America Radical America, 1976 **Goals in a Global Community: The international values and goals studies** Ervin Laszlo, Judah Bierman, 1977
