**The Balkans Beyond Nationalism and Identity** Pavlos Hatzopoulos, 2007-12-19 For decades we have come to accept that nationalism formed the basis of the modern history of the Balkans In this bold and controversial study Pavlos Hatzopoulos turns this assumption on its head Through a ground breaking examination of the non nationalist ideologies in the Balkans during the interwar period Hatzopoulos calls into question the supposedly inherent connection between the Balkans and nationalism and argues that nationalism does not form the sole ordering principle of the modern history of the Balkan region Focusing on the ideologies of communism liberal internationalism and agrarianism Hatzopoulos examines how these interact with nationalist ideology He demonstrates how non nationalist theories challenge the nationalist view of the Balkans as the sum of several national spaces He even questions the nationalist understanding of the very term the Balkans

**The Balkans Beyond Nationalism and Identity** revisits contemporary debates on a region that is still a European crisis point and challenges the nation centric understanding that permeates it In proposing a description of the Balkans as a contested political concept the book argues for a completely fresh interpretation of the region's composition

Nine papers on problems of cultural boundaries are presented with the idea of countering the picture of the Balkans as a huge borderland where irresolvable age old ethnic and religious rivalries will inevitably cause conflict as informed by stereotypes and oversimplifications Topics include the historical crossing of religious borderlines the legitimizing efforts of elites to create national identities struggles to declare ownership over the origins of a particular musical instrument and similar topics
