The Background Of Current World Problems:

Hearings, Reports and Prints of the House Committee on Appropriations United States. Congress. House. Committee on Appropriations,1973 **The Origins of Modern Environmental Thought** Joseph Edward De Steiguer,2006-09-15 The Origins of Modern Environmental Thought provides readers with a concise and lively introduction to the seminal thinkers who created the modern environmental movement and inspired activism and policy change Beginning with a brief overview of the works of Thoreau Mill Malthus Leopold and others de Steiguer examines some of the earliest philosophies that underlie the field He then describes major socioeconomic factors in post World War II America that created the milieu in which the modern environmental movement began with the publication of Rachel Carson s Silent Spring The following chapters offer summaries and critical reviews of landmark works by scholars who helped shape and define modern environmentalism Among others de Steiguer examines works by Barry Commoner Paul Ehrlich Kenneth Boulding Garrett Hardin Herman Daly and Arne Naess He describes the growth of the environmental movement from 1962 to 1973 and explains a number of factors that led to a decline in environmental interest during the mid 1970s He then reveals changes in environmental awareness in the 1980s and concludes with commentary on the movement through 2004 Updated and revised from *The Age of Environmentalism* this expanded edition includes three new chapters on Stewart Udall Roderick Nash and E F Schumacher as well as a new concluding chapter bibliography and updated material throughout This primer on the history and development of environmental consciousness and the many modern scholars who have shaped the movement will be useful to students in all branches of environmental studies and philosophy as well as biology economics and physics
