THERE was once upon a time a king who had a garden in that garden was an apple tree and on that apple tree grew a golden apple every year These stories are the golden apples that grew on the tree in the king s garden grew and grew and grew as the golden years went by and being apples of gold they could never wither nor shrink nor change so that they are as beautiful and precious for you to pluck today as when first they ripened long long ago Perhaps you do not care for the sort of golden apples that grew in the king s garden perhaps you prefer plain russets or green pippins Well these are not to be despised for they also are wholesome food for growing boys and girls but unless you can taste the flavor and feel the magic that lies in the golden apples of the king s garden you will lose one of the joys of youth No one can help respecting apples or stories that gleam as brightly today as they did hundreds and thousands of years ago when first the tiny blossoms ripened into precious fruit Should you ask me whence these stories Whence these legends and traditions With the odors of the forest With the dew and damp of meadows I can say only that the people were telling fairy tales in Egypt in Joseph s time more than three thousand years ago and that grand old Homer told them in the famous Odyssey with its witches and giants its cap of darkness and shoes of swiftness Old nurses and village crones have repeated them by the fireside and in the chimney corner shepherds and cowherds have recounted them by the brookside until the children of the world have all learned them by heart bequeathing them generation after generation as a priceless legacy to their own children Nor must you fancy that they have been told in your own tongue only Long long before the art of printing was known men and women of all nations recited these and similar tales to one another never thinking that the day would come when they would be regarded as the peculiar property of youth and childhood [Management of Turfgrass Diseases](#) Joseph M.
