understanding of civic education There is a gap between theory and practice in social studies education while social studies researchers call for teachers to nurture skills of analysis decision making and participatory citizenship students in social studies classrooms are often found participating in passive tasks e g quiz and test taking worksheet completion listening to lectures rather than engaging critically with the curriculum Civic Education for Diverse Citizens in Global Times directed at students researchers and practitioners of social studies education seeks to engage this divide by offering a collection of work that puts practice at the center of research and theory

Lund,Paul R. Carr,2008 In this provocative collection of essays with a distinctly critical and nuanced approach to how democracy is taught learned understood and lived authors from four continents share their visions on how democracy needs to be cultivated critiqued demonstrated and manifested throughout the educational experience The collective concern is how we actually do democracy in education The essays argue that democracy must be infused in everything that happens at school curriculum extra curricular activities interaction with parents and communities and through formal organization and structures One of the book s central questions is Are educators merely teaching students skills and knowledge to prepare them for the world of work or is education more about encouraging students to thrive within a pluralistic society This book reveals that democracy is an ethos an ideology a set of values a philosophy and a complex and dynamic terrain that is a contested forum for debate From seasoned veterans to emerging scholars these writers challenge the idea that there is only one type of democracy or that democracy is defined by elections Using a range of theoretical conceptual and methodological approaches each essay makes a compelling case for how education can advance a more critical engagement in democracy that promotes social justice and political literacy for all Diverse examples illustrate the theme of doing democracy With its numerous models for teaching and learning to encourage critical thinking and engagement this book is certain to be an invaluable resource to educators researchers students and anyone with a passion for democratic ideals Making Citizens Ramona Maria Fruja,2010 **Comparative Education** Patricia K.
