Temporary Workers Or Future Citizens:

Temporary Workers or Future Citizens? Tadashi Hanami, Myron Weiner, 1997-11-19 Japan and the United States are under global and domestic pressures to simultaneously expand and to restrict immigration. In both countries migration, refugee and citizenship policies have become highly contentious political issues. Myron Weiner and Tadashi Hanami have brought together a distinguished group of American and Japanese experts to examine the very different approaches of these two societies in dealing with employer demand for labour control over illegal migration, the challenge of incorporating immigrants, the legal rights and social benefits of foreign residents and illegal migrants, and the claims of refugees and asylum seekers.

Forced Migration and Global Processes Francois Crepeau, Delphine Nakache, Michael Collyer, Nathaniel H. Goetz, Art Hansen, 2006-03-28 Migration is at the center of much of the discussion on globalization. Migrants move across borders and thus defy state-centered traditions. Migration is often caused or influenced by aspects of global change, the transformation of the world economy with the expansion of free trade, the modification of the world balance of power, and the challenge of global insecurity, the emergence of the global environment as an important political issue, and the redefinition of the role of communities in shaping identities when faced with networks of migrants and diasporas. *Forced Migration and Global Processes* considers the crossroads of forced migration with three global trends: development, human rights, and security. This expert collection studies these complex interactions and aims to help determine what solutions may alleviate most of the human suffering involved in forced migrations.
