Sinus Bone Craft:

The Sinus Bone Graft Ole T. Jensen, 2006 This completely revised and greatly expanded edition offers authoritative recommendations concerning all aspects of sinus bone grafting procedures for rehabilitation of the atrophic maxilla Written for the uninitiated as well as the experienced clinician this comprehensive clinical monograph also guides readers through the maze of new materials and techniques that have been introduced to improve upon or even supplant this procedure It answers questions such as whether autogenous bone is necessary and where best to harvest it which bone substitutes are most effective in regenerating bone and how safe they are to use what contraindications exist and what complications might be expected what characteristics of size shape surface morphology are most important in choosing an implant and many others The last section of the book explores the future prospects for genetic engineering and other gene based therapies that may one day eliminate the need for bone grafting

Sinus Grafting Techniques Ronald Younes, Nabih Nader, Georges Khoury, 2015-01-21 Placement of endosseous implants in the posterior maxilla is often difficult because of a lack of supporting bone Sinus augmentation procedures have therefore been extensively used for the treatment of the edentulous atrophic posterior maxilla prior to implant placement This book describes in detail the most widely used sinus grafting techniques as well as some innovative variations with full coverage of both lateral and crestal approaches A key aim is to assist the practitioner in selecting the appropriate sinus grafting technique based on the evaluation of a number of parameters that are described in detail and codified in a simple and practical way Up to date information is also provided on grafting materials and on potential complications of sinus augmentation procedures and their treatment [CMR](#), 2020 Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020
