Situated Language And Learning:

Situated Language and Learning James Paul Gee, 2004 Why do poor and minority students under perform in school Do computer games help or hinder learning What can new research in psychology teach our educational policy makers In this major new book Gee tackles the big ideas about language literacy and learning putting forward an integrated theory that crosses disciplinary boundaries and applying it to some of the very real problems that face educationalists today Situated Language and Learning looks at the specialist academic varieties of language that are used in disciplines such as mathematics and the sciences It argues that the language acquisition process needed to learn these forms of language is not given enough attention by schools and that this places unfair demands on poor and minority students The book compares this with learning as a process outside the classroom applying this idea to computer and video games and exploring the particular processes of learning which take place as a child interacts with others and technology to learn and play In doing so Gee examines what video games can teach us about how to improve learning in schools and engages with current debates on subjects such as communities of practice and digital literacies Bringing together the latest research from a number of disciplines Situated Language and Learning is a bold and controversial book by a leading figure in the field and is essential reading for anyone interested in education and language

Situated Language Learning Mahmoud M. S. Abdallah, 2015 Currently there is a shift in language learning from the acquisition metaphor to the participation metaphor This involves viewing learners as active constructors of knowledge who can collaborate together to create meaningful language learning situations and contextualised practices Thus this worksheet aims at exploring the concept of Situated Language Learning by shedding some light on its significance and importance for many language learning purposes and also the forms that it might take represented in the approaches and learning scenarios which are consistent with situated language learning as an umbrella term These forms include Community Based Language Learning e g Community Of Practice and Online Language Learning Communities Authentic Language Learning Pedagogy Task Based Language Learning Virtual Language Learning VLL and Cognitive Apprenticeship Models

Sociocultural Theory and Language Learning as Performance John R. Haught, 2018-11-19 The author leads us on a journey of his years teaching additional languages through the use of performing arts Drama theater games music and other performance activities promote language use in authentic and engaging ways that differ from typical classroom activities and allow the language learners to have fun as they solve challenges in the target language Drawing on the work of Lev Vygotsky and Sociocultural Theory he demonstrates how learning is social and how learners create their knowledge by working with

each other Drama and creative arts are a powerful means for teaching and learning language because of the emotional support and encouragement it entails He shows how performing arts engage learners intellectually physically and emotionally while offering supports and scaffolds that lead to powerful learning outcomes He has effectively used these techniques with children and adults both at home and abroad in many different cultures and settings and argues that anyone can use these learning strategies to augment their teaching
