MISSION #1  
Periscope - 1st Part

**CLASSIFIED**

**BACKGROUND**

The periscope you've been assigned has been specially placed in your hands to show you how the viewing of the top-down is done in the real world. This allows you to see over obstacles and around corners. You can use these mirrors because light always reflects off a mirror at the same angle as it hits the mirror. **Light always reflects at the same angle.** The mirrors inside are set at a specific 45 degree angle which light reflects in a 90 degree off the first mirror and the second mirror is set straight down towards the viewing mirror. When you look through the viewing mirror, a beam of light enters and out the top eye.

**MISSION OBJECTIVE**

Using your periscope to spy on a hidden object, which will be set up in a room to be "spied" on. You will be able to see the object when you look through the viewing mirror.
