Studies In Early Modern English:

Studies in Early Modern English Dieter Kastovsky, 1994 The future of English linguistics as envisaged by the editors of Topics in English Linguistics lies in empirical studies which integrate work in English linguistics into general and theoretical linguistics on the one hand and comparative linguistics on the other The TiEL series features volumes that present interesting new data and analyses and above all fresh approaches that contribute to the overall aim of the series which is to further outstanding research in English linguistics

An Introduction to Early Modern English Terttu Nevalainen, 2006 Terttu Nevalainen helps students to place the language of the period 1500-1700 in its historical context whilst showing its regional and social variations He focuses on the structure of the general dialect and its spelling vocabulary grammar and pronunciation as well as its dialectal origins

Ecological Approaches to Early Modern English Texts Jennifer Munroe, Edward J. Geisweidt, 2016-03-09 Ecocriticism has steadily gained footing within the larger arena of early modern scholarship and with the publication of well over a dozen monographs essay collections and special journal issues literary studies looks increasingly green yet the field lacks a straightforward easy to use guide to do with reading and teaching early modern texts ecocritically Accessible yet comprehensive the cutting edge collection *Ecological Approaches to Early Modern English Texts* fills this gap Organized around the notion of contact zones or points of intersection that have often been constructed asymmetrically especially with regard to the human/nonhuman dichotomy the volume reassesses current trends in ecocriticism and the Renaissance introduces analyses of neglected texts and authors brings ecocriticism into conversation with cognate fields and approaches e.g. queer theory feminism post-coloniality food studies and offers a significant section on pedagogy ecocriticism and early modern literature Engaging points of tension and central interest in the field the collection is largely situated in the and/or that resides between presentism historicism materiality literary somatic semiotic nature culture and most importantly human/nonhuman *Ecological Approaches to Early Modern English Texts* balances coverage and methodology its primary goal is to provide useful yet nuanced discussions of ecological approaches to reading and teaching a range of representative early modern texts As a whole the volume includes a diverse selection of chapters that engage the complex issues that arise when reading and teaching early modern texts from a green perspective

The Eco-Self in Early Modern English Literature Elizabeth Gruber, 2025-10-01 *The Eco-Self in Early Modern English Literature* tracks an important shift in early modern conceptions of selfhood arguing that the period hosted the birth of a new subset of the human the eco-self which melds a deeply introspective turn with an abiding sense of humans' embedment in the world A confluence of cultural factors produced the relevant changes Of paramount significance was the rapid spread of literacy in England and across Europe reading transformed the relationship between self and world retooled moral reasoning and even altered human anatomy This book pursues the salutary possibilities including the ecological benefits of this redesigned self by advancing fresh readings of texts by William Shakespeare Christopher Marlowe John Webster and Margaret Cavendish

The eco self offers certain refinements to ecological theory by renewing appreciation for the rational deliberative functions that distinguish humans from other species

Translating Petrarch in early modern Britain Marie-Alice Belle, Riccardo Raimondo, Francesco Venturi, 2025-08-05 *Translating Petrarch in early modern Britain* gathers twelve essays by international scholars focusing on the translation of Petrarch's vernacular verse *Canzoniere* and *Triumpho* into English from the Tudor age to the mid-seventeenth century and beyond. Approaching translation as an interpretive process but also a mode of literary emulation and cultural engagement with Petrarch's prestigious precedent, the collection explores the complex and interconnected trajectories of both poetic works in English and Scottish literary milieus. While situating each translation in its distinct historical material and literary context, the essays trace the reception of Petrarch's works in early modern Britain through the combined processes of linguistic and metric innovation, literary imitation, musical adaptation, and cultural and material domestication. The collection sheds light on the origins and development of early modern English Petrarchism as part of wider transnational and indeed translational European literary culture.

Working Subjects in Early Modern English Drama Michelle M. Dowd, Natasha Korda, 2011 *Working Subjects in Early Modern English Drama* investigates the ways in which work became a subject of inquiry on the early modern stage and the processes by which the drama began to forge new connections between labor and subjectivity in early modern England. The collection considers how drama actively participated in a burgeoning proto-capitalist economy by staging England's newly diverse workforce and exploring the subject of work itself.

Shakespeare and Immigration Ruben Espinosa, 2016-04-01 *Shakespeare and Immigration* critically examines the vital role of immigrants and aliens in Shakespeare's drama and culture. On the one hand, the essays in this collection interrogate how the massive influx of immigrants during the reign of Queen Elizabeth I influenced perceptions of English identity and gave rise to anxieties about homeland security in early modern England. On the other, they shed light on how our current concerns surrounding immigration shape our perception of the role of the alien in Shakespeare's work and expand the texts in new and relevant directions for a contemporary audience. The essays consider the immigrant experience, strangers and strangeness, values of hospitality in relationship to the foreigner, the idea of a host society, religious refuge and refugees, legal views of inclusion and exclusion, structures of xenophobia, and early modern homeland security. In doing so, this volume offers a variety of perspectives on the immigrant experience in Shakespearean drama and how the influential nature of the foreigner affects perceptions of community and identity. The collection questions what is at stake in staging the anxieties and opportunities associated with foreigners. Ultimately, *Shakespeare and Immigration* offers the first sustained study of the significance of the immigrant and alien experience to our understanding of Shakespeare's work. By presenting a compilation of views that address Shakespeare's attention to the role of the foreigner, the volume constitutes a timely and relevant

addition to studies of race ethics and identity in Shakespeare *The Horse in Early Modern English Culture* Kevin De Ornellas, 2014 Kevin De Ornellas argues that in Renaissance England the relationship between horse and rider works as an unambiguous symbol of domination by the strong over the weak There was little sentimental concern for animal welfare leading to the routine abuse of the material animal This unproblematic practical exploitation of the horse led to the currency of the horse rider relationship as a trope or symbol of exploitation in the literature of the period Engaging with fiction plays poems and non fictional prose works of late Tudor and early Stuart England De Ornellas demonstrates that the horse a bridled unwilling slave becomes a yardstick against which the oppression of England s poor women increasingly uninfluential clergyman and deluded gamblers is measured The status of the bitted harnessed horse was a low one in early modern England to be compared to such a beast is a demonstration of inferiority and subjugation To think anything else is to be naive about the realities of horse management in the period and is to be naive about the realities of the exploitation of horses and other mammals in the present day world *A history of English literature, by William Vaughan Moody...* William Vaughan Moody, 1913 *The Early Modern English Period* Kathrin Brandt, 2006-10-08 Seminar paper from the year 2006 in the subject English Language and Literature Studies Linguistics grade 2.0 University of Duisburg Essen course Aspects of the History of English language English abstract This work should give a short overview of the Early Modern English Period It should give an idea how and when this period developed and which were the certain aspects of development This will be followed by some examples of changes and developments in linguistics These examples will be from the areas of phonology morphology and vocabulary During this period there were several groups of authors which should be regarded Which famous and still known authors were parts of which group What was characteristic or special for each group or the period of time when it occurred This will be followed by a short chapter about William Shakespeare who was an important person at that time and in his works one can also see linguistic changes **The Year's Work in English Studies** English Association, 1929 **A Reader in Early Modern English** Mats Rydén, Ingrid Tieken-Boon van Ostade, 1998 The Early Modern English period c 1500 1800 in many respects the most formative time span in the history of English is now increasingly attracting the attention of English language scholars The aim of the present volume is to make easily available to the scholarly public of today some essential linguistic research carried out on that period The volume includes an Introduction and 30 reprinted articles published between 1944 and 1994 Both British and American English are discussed The Introduction takes up issues relevant to the delimitation of the concept Early Modern English primarily in terms of systemic stability and standardisation Information on relevant background reading and on computerized collections of Early Modern English texts literary and non literary is also supplied *Annual Register* University of Chicago, 1925
