Study Guide for Use with Financial Accounting Robert Libby, Patricia A. Libby, Daniel G. Short, 2003 Libby Libby Short  
wrote this text based on their belief that the subject of financial accounting is inherently interesting but financial accounting  
textbooks are often not They believe most financial accounting textbooks fail to demonstrate that accounting is an exciting  
field of study and one that is important to future careers in business When writing this text they considered career relevance  
as their guide when selecting material and the need to engage the student as their guide to style pedagogy and design Libby  
Libby Short is the only financial accounting text to successfully implement a real world single focus company approach in  
every chapter Students and instructors have responded very favorably to the use of focus companies and the real world  
financial statements The companies chosen are engaging and the decision making focus shows the relevance of financial  
accounting regardless of whether or not the student has chosen to major in accounting **Study Guide for Use with Cost**
