The reader is also provided with checklists of documents needed to appraise the asset, sources of industry information, lists of trade associations and journals, a bibliography and a case study and report. Part I on closely held corporations contains chapters devoted to automobile dealerships, media companies, high tech companies, property and casualty insurance companies, construction companies and small businesses such as bars, restaurants and gas stations. Part II covers the evaluation of various professional practices and Part III discusses the valuation of different types of real estate assets. Federal civil service pensions, military pensions and the pensions provided by Fortune 500 corporations are examined in Part IV. The methodologies for evaluating personal property such as gems, jewelry and oriental rugs are found in Part V. Besides aiding attorneys and accountants, this publication will be of great assistance to appraisers, actuaries and pension experts.
