Strindberg called these five highly original late works from 1907 chamber plays to remind us of Beethoven's last quartets. Like the quartets they are intensely disciplined yet elliptical creations. Written for the Intimate Theatre founded with August Flack they strive to reach elusive states of being. Strindberg breaks down for us the barriers between sensory perception and fantasy between real people and their self-projections between the living and the dead. Strindberg and the Five Senses Hans-Goran Ekman, 2000-10-01. In this book Dr Ekman considers Strindberg's four Chamber plays of 1907: *Thunder in the Air*, *The Burned Site*, *The Ghost Sonata* and *The Pelican*. **Master Olof; A Drama in Five Acts** August Strindberg, 2023-07-09. Reproduction of the original. Five Plays August Strindberg, 1960. **The Plays of August Strindberg** August Strindberg, Edith Oland, 2010-01-01. August Strindberg 1849-1912 has been referred to as the father of modern literature in Sweden and has earned the distinction of one of the most important playwrights of the 20th century. As an author unafraid of exploring new possibilities in dramatic fiction, Strindberg is noted for his psychological realism, blatant misogyny, symbolism, and his utterly fluid and subjective sequences of events. His works bore intense scrutiny in their time but have since been recognized for the prodigious influence they exhibited not only in the Naturalist and Expressionist genres but on modern theatre as a whole. His catalogue includes over sixty plays and more than thirty works of fiction. This collection includes *Comrades*, *Facing Death*, *Pariah or The Outcast*, *Easter*, *The Father*, *Miss Julie*, *The Outlaw*, *The Stronger*, *The Dance of Death*, *A Dream Play* and *The Ghost Sonata*. **The Oxford Guide to Literature in English Translation** Peter France, 2000. Translation has been a crucial process in world culture over the past two millennia and more. In the English-speaking cultures many of the most important texts are translations from Homer to Beckett, the Bible to Freud. Although recent years have seen a boom in translation studies, there has been no comprehensive yet convenient guide to this essential element of literature in English. Written by eminent scholars from many countries, the *Oxford Guide to Literature in English Translation* meets this need and will be essential reading for all students of English and comparative literature. It highlights the place of translation in our culture, encouraging awareness of the issues raised, making the translator more visible. Concentrating on major writers and works, it covers translations out of many languages from Greek to Korean, from Swahili to Russian. For some works, e.g. Virgil's *Aeneid*, which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available. The Guide is divided into two parts. Part I contains substantial essays on theoretical questions, a pioneering outline of the history of translation into English, and discussions of the problems raised by specific types of text, e.g. poetry, oral literature. The second, much longer part consists of entries grouped by language of origin; some are devoted to individual texts, e.g. *The Thousand and One Nights*, or writers, e.g. Ibsen, Proust, but the majority offer a critical overview of a genre, e.g. Chinese poetry, Spanish Golden Age drama, or of a national literature, e.g. Hungarian, Scottish Gaelic. There is a selective bibliography for each entry and an index of authors and

Art, Vision, and Nineteenth-Century Realist Drama Amy Holzapfel, 2014-01-03 Realism in theatre is traditionally defined as a mere seed of modernism a crude attempt to reproduce an exact copy of reality on stage *Art Vision Nineteenth Century Realist Drama* redefines realism as a complex and under examined form of visual modernism one that positioned theatre at the crux of the encounter between consciousness and the visible world Tracing a historical continuum of acts of seeing on the realist stage Holzapfel demonstrates how theatre participated in modernity's aggressive interrogation of vision's residence in the human body New findings by scientists and philosophers such as Diderot Goethe Müller Helmholtz and Galton exposed how the visible world is experienced and framed by the unstable relativism of the physiological body rather than the fixed idealism of the mind Realist artists across media paradoxically embraced this paradigm shift by focusing on the embodied observer Drawing from extensive archival research Holzapfel conducts close readings of iconic dramas and their productions including Scribe's *The Glass of Water* Zola's *Thérèse Raquin* Ibsen's *A Doll House* Strindberg's *The Father* and Hauptmann's *Before Sunrise* alongside analyses of artwork by major painters and photographers such as Chardin Nadar Millais Rejlander and Liebermann In a radical challenge to existing criticism Holzapfel argues that realism in theatre was never the attempt to reproduce an exact copy of the seen world but rather the struggle to make visible the act of seeing
