

Proven Study Techniques That Really Work

Spaced Repetition

Review info at set intervals, not all at once. Come back just as you're about to forget — this locks it in for the long term. Try apps like Anki to make it easy

Retrieval Practice

Quiz yourself instead of just rereading notes. Actively pull answers from memory — practice tests and flashcards help make knowledge stick

Interleaved Practice

Don't study just one subject for hours. Switch topics and problem types. Mixing things up feels harder, but it teaches your brain to spot patterns

Elaborative Interrogation

Ask "why?" as you study. Connect new ideas to what you already know. Explaining in your own words helps you remember information better
