The Long Lost Friends:

To the Land of Long Lost Friends Alexander McCall Smith, 2019-10-22 In the latest book in the widely beloved No 1 Ladies Detective Agency series Precious Ramotswe takes on a case for a childhood acquaintance and finds that family relationships are always a tricky proposition even for Botswana's premier female detective Mma Ramotswe has reconnected with an old friend who has been having problems with her daughter Though Precious feels compelled to lend a hand she discovers that getting involved in family affairs is always a delicate affair The young woman appears to be involved with a charismatic preacher But are his ministrations entirely of a godly nature Elsewhere Charlie is also struggling with a tricky matter of the heart He wishes to propose to his girlfriend Queenie Queenie but he's struggling to come up with a bride price that will impress her father When Queenie's brother offers to help by giving him a job the offer may not be quite what Charlie expected As always Mr J L B Matekoni will offer wise counsel Mma Makutsi will weigh in with her opinions and Mma Potokwane will be there with her welcome fruit cake But in the end it will be up to Mma Ramotswe to reflect on love family and the nature of men and women in order to resolve family dramas and remind everyone about all the good things they have in life so many in fact that it would take far too long to count them

Artificial Intelligence and Literary Creativity Selmer Bringsjord, David Ferrucci, 1999-09-01 Is human creativity a wall that AI can never scale Many people are happy to admit that experts in many domains can be matched by either knowledge based or sub symbolic systems but even some AI researchers harbor the hope that when it comes to feats of sheer brilliance mind over machine is an unalterable fact In this book the authors push AI toward a time when machines can autonomously write not just humdrum stories of the sort seen for years in AI but first rate fiction thought to be the province of human genius It reports on five years of effort devoted to building a story generator the BRUTUS 1 system This book was written for three general reasons The first theoretical reason for investing time money and talent in the quest for a truly creative machine is to work toward an answer to the question of whether we ourselves are machines The second theoretical reason is to silence those who believe that logic is forever closed off from the emotional world of creativity The practical rationale for this endeavor and the third reason is that machines able to work alongside humans in arenas calling for creativity will have incalculable worth
