Mapping Cyberspace Martin Dodge, Rob Kitchin, 2003-09-02 Mapping Cyberspace is a ground breaking geographic exploration and critical reading of cyberspace and information and communication technologies. The book provides an understanding of what cyberspace looks like and the social interactions that occur there. It explores the impacts of cyberspace and information and communication technologies on cultural, political and economic relations, charts the spatial forms of virtual spaces, details empirical research and examines a wide variety of maps and spatialisations of cyberspace and the information society. It has a related website at <http://www.MappingCyberspace.com>. This book will be a valuable addition to the growing body of literature on cyberspace and what it means for the future.

Cambridge English for the World 4 Student's Book Andrew Littlejohn, Diana Hicks, 1998-11-12 Cambridge English for the World offers an exciting new approach to English for students from eleven to sixteen. Closing the Service Gap Benjamin Laker, Lebene Richmond Soga, Yemisi Bolade-Ogunfodun, 2023-04-07 How connected are your customers, employees and organisation? As technology advances and customer expectations rise, the most sustainable and realistic way businesses can succeed in the future is by connecting their customers, employees and organisation. Following in the footsteps of some of the world's largest companies, this book shows you how to transform your business culture using technology to connect the three most important stakeholders: the customers, employees and the organisation, and deliver value to each in turn. This model is best recognised as RenDanHeyi, a Chinese term that means each employee, Ren, the needs of each customer, Dan, and the connection between the two, Heyi. With practical steps, tips and case studies, this book helps you to build and implement a strategy to close the service gap in your organisation. Understand how to use the RenDanHeyi model to connect your employees, customers and organisation. Use new or existing technology to link customer expectations to employee activities and craft job roles and workforce planning strategy around customer needs. Create a connected organisation that generates sustainable and scalable revenue for the business. Transform your leadership from one that delegates to one that empowers and enables employees.
