Schwartz,2007-08-07 A healer removes the pain of a broken wrist in fifteen minutes Another removes an ovarian tumor in a couple of weeks Still another from thousands of miles away regenerates the nerves of an injured spine for a patient on whom the doctors had given up These sound like tabloid stories but could they be true They are just three out of millions of instances in which healers have claimed to manipulate energy fields to cure the body Books on vibrational medicine prayer and spiritual healing present readers with an array of historical and current discoveries and techniques But so far nobody has addressed the reality of healing through comprehensive scientific research The Energy Healing Experiments fills that void Harvard educated Dr Gary E Schwartz provides scientific experiments and evidence to reveal the

truth about the existence of energy fields and unlocks their potential for enhancing your health Philosophical Insights about Modern Science Eva Zerovnik, Olga Markič, Andrej Ule, 2009 Modern science is so much specialised that it seems utopic to try to follow it all at once This new book is aimed at crossing the gap between specialists and a common understanding of modern science It would seem desirable that all educated people would know something from the humanities literature art but also the newest developments of natural sciences One aim of this book is to point out the main messages of certain scientific fields and what is really new and beyond the average educational level in order to broaden our horizons Therefore at the end of the chapters each scientific field possible future contributions and and ethical concerns if any are elaborated
