**The Art History of the Ming Dynasty** Li Shi, The book is the volume of The Art History of the Ming Dynasty among a series of books of Deep into China Histories The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c 1600 1046 BC and the Bamboo Annals 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no writing is known from the period The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization However Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River These Yellow River and Yangtze civilizations arose millennia before the Shang With thousands of years of continuous history China is one of the world's oldest civilizations and is regarded as one of the cradles of civilization The Zhou dynasty 1046 256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually

splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the following Warring States period. Much of traditional Chinese culture, literature, and philosophy first developed during those troubled times. In 221 BC, Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi, or emperor of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death and was supplanted by the longer-lived Han dynasty (206 BC–220 AD). Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men well-versed in calligraphy, history, literature, and philosophy were carefully selected through difficult government examinations. China's last dynasty was the Qing (1644–1912), which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood, the most recent being the Chinese Civil War (1927–1949). China was occasionally dominated by steppe peoples, most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism, Chinese dynasties have ruled parts or all of China; in some eras, control stretched as far as Xinjiang and Tibet, as at present. Traditional culture and influences from other parts of Asia and the Western world, carried by waves of immigration, cultural assimilation, expansion, and foreign contact, form the basis of the modern culture of China.

*Wind and Rain at the Brush* Mike Mei, 2023-02-12. Being in a foreign country, immersed in the great atmosphere of western culture, what is still in my heart is the quintessence of China, and the DNA of Chinese culture still flows in my blood. The United States is a multi-ethnic country, and the cultural essence of various ethnic groups blooms here like the flowers of spring. Chinese calligraphy, the gem of Chinese culture with a history of 3,000 years and the genius of the world that has shocked the history of art, has been splendid in this melting pot. The sages said: There are at least two aspects in life: one is life, and the other is spirit. Once one settles in a foreign place, there will be spiritual pursuits; cultural factors will become active; childhood dreams will come into life, and flowers will bloom in the cradle of multiculturalism. In the educational world dominated by western culture, eastern culture and Chinese culture are not featured prominently, especially in art departments in universities. I am honored to be a practitioner and inheritor of Chinese calligraphy, and I am a frequent guest speaker in various schools and museums in New England, such as Harvard and Wellesley universities, giving lectures, demonstrations, and exhibitions, etc. These invitations compensate for the neglect of Chinese calligraphy in the main curriculum and allow students to witness the creative process of Chinese calligraphy as an art form. In Asian art departments of western universities, there are capable people who study Chinese calligraphy theories from the perspective of westerners, but only a few who are capable of doing calligraphy. To answer this need, I felt compelled to take up a teaching role, shuttling between colleges, high schools, and elementary schools.
