## What Color Is A Butterfly:

**What Color Is the Sacred?** Michael Taussig, 2024-05-31 Over the past thirty years visionary anthropologist Michael Taussig has crafted a highly distinctive body of work Playful enthralling and whip smart his writing makes ingenious connections between ideas thinkers and things An extended meditation on the mysteries of color and the fascination they provoke What Color Is the Sacred is the next step on Taussig s remarkable intellectual path Following his interest in magic and surrealism his earlier work on mimesis and his recent discussion of heat gold and cocaine in My Cocaine Museum this book uses color to explore further dimensions of what Taussig calls the bodily unconscious in an age of global warming Drawing on classic ethnography as well as the work of Benjamin Burroughs and Proust he takes up the notion that color invites the viewer into images and into the world Yet as Taussig makes clear color has a history a manifestly colonial history rooted in the West s discomfort with color especially bright color and its associations with the so called primitive He begins by noting Goethe s belief that Europeans are physically averse to vivid color while the uncivilized revel in it which prompts Taussig to reconsider colonialism as a tension between chromophobes and chromophiliacs And he ends with the strange story of coal which he argues displaced colonial color by giving birth to synthetic colors organic chemistry and IG Farben the giant chemical corporation behind the Third Reich Nietzsche once wrote So far all that has given colour to existence still lacks a history With What Color Is the Sacred Taussig has taken up that challenge with all the radiant intelligence and inspiration we ve come to expect from him
