Race and Ethnic Relations in the First Person Michael A. Burayidi, Alfred Kisubi, 1998-01-13 This accessible challenging discussion of race relations looks at how institutions shape individual experience and asks how we can prevent a violent splintering of American society along racial lines in the 21st century Arguing that the best way to understand race relations is through the personal accounts of individuals as they go through the life cycle this highly readable book uses real life stories to illuminate how families peer groups and workplaces influence views about other racial and ethnic groups The authors hope to inspire readers to intervene and counteract negative perceptions of racial difference through their open frank discussion of the racial divide **When Getting Along Is Not Enough** Maureen Walker, 2019 Now more than ever race has become a morphing relational dynamic that has less to do with the demographic census box we check and more with how we make sense of our lives who we are and who we can become in relationships with others Using anecdotes from her practice as a licensed psychologist and as an African American growing up in the South Walker provides a way for educators and social service professionals to enter into cross racial discussions about race and race relations She identifies three essential relational skills for personal transformation and cultural healing that are the foundations for repairing the damage wrought by racism While Walker does not sugarcoat the destructive history of racism that we all inherit in the United States the book's vision is ultimately affirming empowering hopeful and inclusive about the individual and collective power to heal our divisions and disconnections Book Features Presents a new way of understanding race as a relational dynamic and racism as a symptom of disconnection Synthesizes for the first time two important systems of thought relational cultural theory and race social identity theory Includes Pause to Reflect exercises designed to stimulate group conversations in book clubs social justice groups staff development classrooms and workplace training Offers practical everyday solutions for people of different races to better understand and accept one another **Race and Ethnic Relations on Campus** Eric J. Bailey, 2018-09-07 Can college students confront race relations issues directly and make positive changes Yes they can This book provides a fresh practical approach to addressing these issues individually and collectively to ignite a positive

revolution in race and ethnic relations As racial and ethnic incidents continue to occur at college campuses across the nation an esteemed African American professor who teaches in the heart of a region that has seen some of the most volatile racial incidents in American history breaks the uneasy silence to respond to growing concerns from undergraduate students In *Race and Ethnic Relations on Campus Understanding Empowerment and Solutions for College Students* Eric J Bailey presents a new approach to addressing and better understanding the major controversial issues associated with race and ethnic relations for today s college students This book confronts commonplace race relations issues directly and sets forth a completely different way of addressing these problems that empowers today s college students to take charge and start to effect change to do something about racially charged conflict rather than to simply talk about it The chapters describe how race and ethnic relations issues typically arise on college campuses share insight into how national incidents affect college students reactions to incidents on their own campus and identify the negative consequences of poor race relations as well as describe the positive effects of good race relations *Understanding Race and Ethnic Relations* Vincent N.
