**December Roses** Hector M. Medina, 2011-03-03 Divorce the termination of marriage currently affects approximately one out of two marriages in the United States There is no guarantee for those attending church required marital preparation classes or by celebrating a religious ceremony that the union will not conclude in the tragedy of divorce As the Church lists marriage as a vocation a call from God it is quite evident that in many cases God is not a part of the lived out experience of many married couples Though much literature has been written on this topic December Roses details the thought processes associated with the planning and execution of a divorce and the painful emotions and feelings which occur while at the same time providing a means of prayerful healing for those involved in the divorce situation Divorce touches many issues and feelings As marriages die and friendships are broken the pain cries out for healing Pastorally through case study reflection and prayer the issues inherent in any divorce are brought forward to the healing movements of God As a priest for twenty six years I have witnessed counseled and cried with family friends and parishioners as divorce took its toll on very good people This book is written with the faith that God is greater than our human moments of grief Through God s compassion healing is possible Good Intentions Gone Awry Allen M. Parkman, 2000 Based on sociological and economic analysis Good

Intentions Gone Awry presents valuable new insights into the impact of divorce on American society Rather than blaming the deterioration in the quality of family life on the decline in so called family values lawyer and economist Parkman argues that adults are responding to the incentives created by new opportunities and legal rules Allen M Parkman discusses the issues surrounding this sociological phenomena proposes a reform program in response and suggests steps that adults can take to create a durable and constructive family until such reforms occur **Fertility and Family Planning in the United States**

Weitzman, 1985 Based upon interviews with judges lawyers and divorced persons in California and data collected from that state s court dockets this volume presents the first systematic examination of the social and economic effects of divorce law reform Sociologist Weitzman concludes that while the abolition of grounds fault and consent has eliminated much of the acrimony previously associated with divorce proceedings this together with the institution of gender neutral standards for property awards and child support has resulted in increased economic hardship and social dislocation for divorced women and dependent children Weitzman does not intend to extrapolate her data conclusions and recommendations to the whole country however it is reasonable to believe that they have national implications Merlin Whitemen Dann Pecar Newman Talesnick amazon com
