and effective structural firefighting requires a complex thought process. It is not a simple matter of how to. Decisions depend on many factors from the type of building to the likelihood of occupancy to the water supply. The third edition of *Structural Firefighting Strategy and Tactics* leads readers through all phases of planning, evaluation, and implementation to enable them to effectively manage structure fire incidents in a safe and effective manner regardless of size or complexity. The third edition has been revised to thoroughly cover the practical applications and limitations of the latest research from Underwriters Laboratories (UL) and National Institute of Standards and Technology (NIST).

Fire Under Control Steve Bernocco, 2020-12-02. The core principles of structural firefighting are fire behavior, building construction, strategy, tactics, safety, and training. Each core principle is examined with relevant on-the-job stories to bring lessons home. Fire departments must constantly train their firefighters and officers in these core principles if they want them to be safe and effective at structure fires. Training is the foundation of all the other core principles and must be realistic, scenario-based, and hands-on. Never stop learning during your time as a structural firefighter. If you come to a point where you mistakenly believe that you know everything, there is still much to know about fires in and around buildings. Watch out because you have just fallen into the complacency trap.

FEATURES: Gain a deeper understanding of how firefighters should approach fires in buildings with an emphasis on safety and effectiveness. See the latest research from UL and NIST on fire behavior and flow paths with a discussion of best practices and up-to-date tactical advice. An essential, easy-to-read, fundamental resource on how to safely and effectively fight fires in buildings of any size or type. *Fire Under Control* is a riveting new book that allows you to learn while also seeing how street experiences coincide with printed tactical and scientific fire service information. I always have said that eyes, ears, and experience will equal your education in the fire service, and Capt. Steve Bernocco has managed to bring it to light.
