The Marburg Chronicles:

The Marburg Chronicles Alfred Coppel,1987-02 *The Marburg Chronicles* Alfred Coppel,1985 Traces the fortunes of the Marburg family through three generations a dynasty begun with the marriage of Micah Marburg a German Jewish banker to the strong and vital Spanish beauty Adrianna Santana *Marburg Chronicles* Outlet,Outlet Book Company Staff,Random House Value Publishing Staff,1987-05-01 *Medieval Authorship and Cultural Exchange in the Late Fifteenth Century* Rombert Stapel,2020-12-28 *Medieval Authorship and Cultural Exchange in the Late Fifteenth Century* is a multidisciplinary study of late medieval authorship and the military orders framed as a whodunit that uncovers the anonymous author of the Utrecht Chronicle of the Teutonic Order Through a close analysis of the Utrecht Chronicle of the Teutonic Order and its manuscripts and by exploiting a wide range of scholarly techniques from traditional philology and extensive codicological examinations to modern digital humanities techniques the book argues that the recently resurfaced Vienna manuscript is actually an author's copy written in direct cooperation with the original author This important assertion leads to a reinterpretation of the text its sources and composition authorship and the context in which it was conceived It allows us to associate the text with an upsurge of historiographical activities by various military orders across the continent seemingly in response to the publication and aggressive dissemination of the account of the Siege of Rhodes by Guillaume Caoursin in 1480 Furthermore the text can be positioned at the crossroads between different cultural spheres ranging from the Baltic region to the Low Countries spanning French German Dutch and Latin linguistic traditions This book will appeal to scholars and students of medieval history as well as those interested in cultural history and the military religious orders *Heart of the Country* Greg Matthews,2005-02-01 An unforgettable odyssey across the harsh and unforgiving land of the Great Plains

The Brut, Or, The Chronicles of England: Prehistory (Myth) to Halidon Hill, 1333 Friedrich W. D. Brie,1906 Medieval Frontiers: Concepts and Practices David Abulafia,Nora Berend,2017-03-02 In recent years the medieval frontier has been the subject of extensive research But the term has been understood in many different ways political boundaries fuzzy lines across which trade religions and ideas cross attitudes to other peoples and their customs This book draws attention to the differences between the medieval and modern understanding of frontiers questioning the traditional use of the concepts of frontier and frontier society It contributes to the understanding of physical boundaries as well as metaphorical and ideological frontiers thus providing a background to present day issues of political and cultural delimitation In a major introduction David Abulafia analyses these various ambiguous meanings of the term frontier in political cultural and religious settings The articles that follow span Europe from the Baltic to Iberia from the Canary Islands to central Europe Byzantium and the Crusader states The authors ask what was perceived as a frontier during the Middle Ages What was not seen as a frontier despite the usage in modern scholarship The articles focus on a number of themes to elucidate these two main

questions One is medieval ideology This includes the analysis of medieval formulations of what frontiers should be and how rulers had a duty to defend and or extend the frontiers how frontiers were defined often in a different way in rhetorical ideological formulations than in practice and how in certain areas frontier ideologies were created The other main topic is the emergence of frontiers how medieval people created frontiers to delimit areas how they understood and described frontiers The third theme is that of encounters and a questioning of medieval attitudes to such encounters To what extent did medieval observers see a frontier between themselves and other groups and how does real interaction compare with ideological or narrative formulations of such interaction
