Magrini, Elias Schwieler, 2017-08-07 Offering new and original readings of literature poetry and education as interpreted through the conceptual lens of Heidegger s later philosophy of the Turn this book helps readers understand Heidegger s later thought and presents new takes on how to engage the themes that emerged from his later writing Suggesting novel ways to consider Heidegger s ideas on literature poetry and education Magrini and Schwieler provide a deep understanding of the Turn a topic not often explored in contemporary Heideggerian scholarship Their inter and extra disciplinary postmodern approaches offer a nuanced examination taking into account Heidegger s controversial place in history and filling a gap in educational research
