The Uncompleted Past:

The Uncompleted Past Martin Duberman (Historiker, Schriftsteller), 1969 *Family Secrets and the Contemporary German Novel* Elizabeth Snyder Hook, 2001 Central to the discussions of each novel are questions of guilt cultural identity and atonement and of the relocation of these ultimately unresolvable issues from the larger national and political arena to the realm of intimate relationships between parents and children **BOOK JACKET** **The Caribbean Novel since 1945** Michael Niblett, 2012-02-16 The Caribbean Novel since 1945 offers a comparative analysis of fiction from across the pan Caribbean exploring the relationship between literary form cultural practice and the nation state Engaging with the historical and political impact of capitalist imperialism decolonization class struggle ethnic conflict and gender relations it considers the ways in which Caribbean authors have sought to rethink and re narrate the traumatic past and often problematic postcolonial present of the region s peoples It pays particular attention to the role cultural practices such as stick fighting and Carnival as well as religious rituals and beliefs like Vodou and Myal have played in efforts to reshape the novel form In so doing it provides an original perspective on the importance of these practices with their emphasis on bodily movement to the development of new philosophies of history Beginning in the post WWII period when optimism surrounding the possibility of social and political change was at a peak The Caribbean Novel since 1945 interrogates the trajectories of various national projects through to the present It explores how the textual histories of common motifs in Caribbean writing have functioned to encode the fluctuating fortunes of different political dispensations The scope of the analysis is varied and comprehensive covering both critically acclaimed and lesser known authors from the Anglophone Francophone and Hispanophone traditions These include Jacques Roumain Sam Selvon Marie Chauvet Luis Rafael S nchez Earl Lovelace Patrick Chamoiseau Erna Brodber Wilson Harris Shani Mootoo Oonya Kempadoo Ernest Moutoussamy and Pedro Juan Guti rrez Mixing detailed analysis of key texts with wider surveys of significant trends this book emphasizes the continuing significance of representations of the nation state to literary articulations of resistance to the imperialist logic of global capital

Refractions of the Third Reich in German and Austrian Fiction and Film Chloe Paver, 2007-02-22 Six decades after the defeat of National Socialism commemoration and mourning are ongoing open ended projects in Germany and Austria and continue to generate a steady stream of literature and film about the Nazi past that while comparatively modest in volume is often disproportionately influential in public debates At the same time new museums and memorials are being established all the time in what Andreas Huyssen has called a memory boom while what is remembered and how it is remembered is subject to continuous change Scholars have to keep pace with each new development in this culture of commemoration Rather than add to the growing body of surveys of literature and film about the Third Reich this study instead puts scholars critical approaches under the microscope Chloe Paver considers how far the object of the study is not just analysed but also constructed by the scholar s approach and identifies the criteria by which academics judge the values of works that deal with

the Third Reich This book brings aspects of film fiction and memorial culture together in a single study that pays as much attention to images and in the case of film to sound as it does to text The study of film historical exhibitions and sites of memory also demands consideration of social contexts and practices A case study of memory at two of Austria's sites of terror demonstrates the methods used in the study of memorials and museums and considers the ways in which memory attaches itself to place

Murder in Our Midst Omer Bartov, 1996-02-29 War endlessly tries to mask itself The myth of the heroic soldier testing his individual courage stands in stark contrast to the reality of mass anonymous death and the suppression of individual actions Murder in Our Midst shows that this fundamental tension reached its natural conclusion in the Holocaust and that disguising it has required an ongoing effort to misrepresent war and the Holocaust as something other than industrial killing Examining a broad range of the representations of war's horrors from scholarly depictions to those in popular literature poetry art and the movies Omer Bartov finds they have some things in common Societies and cultures have attempted to form coherent images of horrific events to draw didactic lessons from them and to exploit them to legitimate ideological or political positions Made up of interconnected essays this book is both a scholarly and an often personal and passionate examination of the emergence implementation and representation of industrial killing Bartov draws out the links between recent revisionist attempts to minimize and deny the Holocaust and Hollywood's ongoing fascination with National Socialism and Hitler's Final Solution Arguing that the modern predicament reflects the effects of the Nazi genocide on current perceptions of war history and memory this book is a plea for compassion and commitment in an increasingly violent and indifferent world

The Cambridge Companion to the Modern German Novel Graham Bartram, 2004-04-05 The Cambridge Companion to the Modern German Novel first published in 2004 provides a broad ranging introduction to the major trends in the development of the German novel from the 1890s to the present Written by an international team of experts it encompasses both modernist and realist traditions and also includes a look back to the roots of the modern novel in the Bildungsroman of the late eighteenth and nineteenth centuries The structure is broadly chronological but thematically focused chapters examine topics such as gender anxiety images of the city war and women's writing within each chapter key works are selected for close attention Unique in its combination of breadth of coverage and detailed analysis of individual works and featuring a chronology and guides to further reading this Companion will be indispensable to students and teachers
