Trading Nation:

A Trading Nation Michael Hart,2002 Canada has always been a trading nation From the early days of fur and fish to the present when a remarkable 90 percent of the gross national product is attributable to exports and imports Canadians have relied on international trade to bolster their economy A Trading Nation a brilliantly crafted overview and analysis of the historical foundations of modern Canadian trade policy is the first survey to address the history of Canadian commercial policy in over 50 years Michael Hart skillfully guides readers through more than three centuries of Canadian trade history His engaging narrative explains how Canadians have largely come to accept that a country that derives much of its wealth from international commerce has much to gain from an open well ordered international economy Close attention to trade and related economic policy choices he argues is crucial if Canada intends to adapt to the challenges of the new globalized economy
