Sort Of Conscience The Wakefields:

A Sort of Conscience Philip Temple, 2002 At once notorious and visionary Edward Gibbon Wakefield and his brothers played a key but controversial role in the early British settlement of New Zealand Australia and Canada Once famed as New Zealand's Founding Fathers they have since become the arch villains of all post colonial scenarios of the past In stitching together a net of letters and documents Temple has produced the most comprehensive account yet of the Wakefield family's role in colonial development and self government across the old Commonwealth

A Sort of Conscience Philip Temple, 2009 Edward Gibbon Wakefield and his brothers were key but controversial players in the early settlement of New Zealand Australia and Canada Once famed as New Zealand's Founding Fathers they became the villains of post colonial scenarios No adequate biography existed of the family most responsible for the establishment of Wellington Nelson and Canterbury In trying to establish the facts the author has produced a comprehensive account of the family's role in colonial development and self government

The Origins of an Experimental Society Erik Olssen, 2025-04-10 In this major work one of our leading historians offers a new account of the origins of New Zealand how Pakeha settlers nurtured on Enlightenment thought and evangelical humanitarianism encountered Maori and how the two peoples together developed a distinctively experimental society With James Cook's arrival in 1769 and the subsequent colonisation New Zealand became one of the few post Enlightenment experiments in creating a new nation anywhere in the world The Europeans who settled these islands brought with them a belief in the power of reason and experience to improve peoples and societies Encounters between Maori and these new arrivals profoundly shaped the thoughts and behaviours of both peoples Olssen argues that the people who settled New Zealand planned two experiments in making a better society They hoped that in contrast to earlier colonial projects the indigenous New Zealanders would not be driven to extinction but eventually take their place as equals in a modern commercial society And they aimed to create a society that was fairer and more just than the one they had left behind a Better Britain While both experiments were first conceived by savants and philosophers they gained ongoing support by lodging in the hearts and minds of the settlers whalers and missionaries mothers and farmers In turn Maori adapted these new ideas to their own ends giving up slavery and inter tribal warfare and adapting the institutions of the colonisers in ways that would re define the experiments This then is an ethnography of tangata Pakeha a people of European descent changed by their encounters with tangata Maori and their land just as Maori were themselves changed and the story of the society they built together Ranging across intellectual and cultural history from the beach at Paihia to the coffee houses of Paris Olssen enables us to understand the origins of New Zealand anew

Fairness and Freedom David Hackett Fischer, 2012-02-10 Fairness and Freedom compares the history of two open societies New Zealand and the United States with much in common Both have democratic polities mixed enterprise economies individuated societies pluralist cultures and a deep concern for human rights and the rule of law But all of these elements take different forms because constellations of

value are far apart The dream of living free is America s Polaris fairness and natural justice are New Zealand s Southern Cross Fischer asks why these similar countries went different ways Both were founded by English speaking colonists but at different times and with disparate purposes They lived in the first and second British Empires which operated in very different ways Indians and Maori were important agents of change but to different ends On the American frontier and in New Zealand s Bush material possibilities and moral choices were not the same Fischer takes the same comparative approach to parallel processes of nation building and immigration women s rights and racial wrongs reform causes and conservative responses war fighting and peace making and global engagement in our own time with similar results On another level this book expands Fischer s past work on liberty and freedom It is the first book to be published on the history of fairness And it also poses new questions in the old tradition of history and moral philosophy Is it possible to be both fair and free In a vast array of evidence Fischer finds that the strengths of these great values are needed to correct their weaknesses As many societies seek to become more open never twice in the same way an understanding of our differences is the only path to peace

Owning the Earth Andro Linklater,2013-11-12 From the author of the acclaimed Measuring America a dazzling chronicle through history and across cultures about how the ability to own the land we inhabit has shaped modern society Barely two centuries ago most of the world s productive land still belonged either communally to traditional societies or to the higher powers of monarch or church But that pattern and the ways of life that went with it were consigned to history by Andro Linklater persuasively argues the most creative and at the same time destructive cultural force in the modern era the idea of individual exclusive ownership of land Spreading from both shores of the north Atlantic it laid waste to traditional communal civilizations displacing entire peoples from their homelands but at the same time brought into being a unique concept of individual freedom and a distinct form of representative government and democratic institutions By contrast as Linklater demonstrates other great civilizations in Russia China and the Islamic world evolved very different structures of land ownership and thus very different forms of government and social responsibility The history and evolution of landownership is a fascinating chronicle in the history of civilization offering unexpected insights about how various forms of democracy and capitalism developed as well as a revealing analysis of a future where the Earth must sustain nine billion lives Seen through the eyes of remarkable individuals Chinese emperors German peasants the seventeenth century English surveyor William Petty who first saw the connection between private property and free market capitalism the American radical Wolf Ladejinsky whose land redistribution in Japan Taiwan and South Korea after WWII made possible the emergence of Asian tiger economies Owning the Earth presents a radically new view of mankind s place on the planet

Guns and Utu Matthew Wright,2011-08-01 So they went forth and they were given over to death by the guns Rangipito of Ngati Rahiri In the two decades before the Treaty of Waitangi New Zealand was ripped asunder by island spanning waves of warfare extreme violence and cannibalism Great war parties surged the length of the land to avenge historic grievances killing and

burning as they went Whole peoples were uprooted and found new homes Despite the name given them by history one thing we can be certain about is that these dramatic conflicts were not simply musket wars This was an age of courage of heroism of great character and of astonishing deeds And they are not dead history Twenty first century New Zealand has been profoundly shaped by them not least in the location of most of the major cities In Guns and Utu historian Matthew Wright disputes the many mythologies of these wars examining some of the whys and wherefores of this generation long culture collision A spectacular book Don Rood Radio New Zealand National Asian/Pacific Book Development ,2002 **Edward Gibbon Wakefield** Irma O'Connor,1928 *The New Zealand Journal of History* ,2007 **The Delineator** ,1905 *Wakefield Standley* Susan Godfred Hooker Whiteman,1888 The life of Captain Wakefield Standley told in verse **The Works of Oliver Goldsmith: Life of Goldsmith. Vicar of Wakefield. Essays, Letters** Oliver Goldsmith,1908 *The Collected Works of Edward Gibbon Wakefield* Edward Gibbon Wakefield,1968 **The Vicar of Wakefield** Oliver Goldsmith,1891 British Review of New Zealand Studies ,2005 **Vicar of Wakefield** Oliver Goldsmith,1899 **The Turnbull Library Record** ,1994 **Goldsmith's Vicar of Wakefield** Oliver Goldsmith,1887 The Vicar Dr Charles Primrose lives an idyllic life in a country parish with his wife Deborah son George daughters Olivia and Sophia and three other children He is wealthy due to investing an inheritance he received from a deceased relative and he donates the 35 that his job pays annually to local orphans and war veterans On the evening of George s wedding to wealthy Arabella Wilmot the Vicar loses all his money through the bankruptcy of his merchant investor who has left town abruptly The Works of Oliver Goldsmith: Life. Vicar of Wakefield. Essays. Letters Oliver Goldsmith,1884 **Honouring the Contract** John E. Martin,2010 Providing a vital background to some of the pressing issues in contemporary New Zealand politics this novel perspective on the distinctive foundations of the country s welfare state raises issues concerning modern day concepts of citizenship as this welfare state comes under challenge Government policy has been linked to this evolving social contract between wage earners and the state With the contract s genesis in the migration of wage earners from Britain in the 1840s New Zealand became an experimental laboratory first promoting settlement of the land then safeguarding the economic position of the male breadwinner and with the emergence of the welfare state in the early 20th century protecting the standard of living of families As it explains the social policies and how they changed over time this book reveals how honoring this contract was the driving force behind its evolution
