Analysis of Command and Control Battlefield Functions as Performed in the Armored Brigade J. Patrick Ford,William J. Mullen,J. Ward Keesling,1997 The purpose of the research was to document the synchronization required by command and control tasks performed within the armored brigade to include CS CSS units The immediate application of the documentation was to support developers of staff training in two related projects Battle Staff Training System and Staff Group Trainer The documentation was also intended to assist with the planning and execution of collective training The documentation approach was to apply function analysis FA techniques for battlefield functions BFs in the Command and Control battlefield operating system Thirteen FAs were developed for the Brigade headquarters and four supporting units direct support field artillery battalion engineer battalion forward support battalion and air defense artillery battery The FAs were revised through a formative evaluation process that included internal review and successive external reviews by combat training centers proponent agencies and a review council representing potential users of the FAs The final products include the FAs a user s guide and assessment packages for the BFs DTIC *Establishing a Methodology to Evaluate Teen Driver-training Programs* Tammy E. Trimble,Stephanie Baker,William A. Schaudt,Taryn Schrader,2013 The goal of this research project was to develop a methodology to assist the Wisconsin Department of Transportation WisDOT in the evaluation of effectiveness of teen driver education programs over the short and long terms The research effort was divided into two phases Phase I focused on the development of an evaluative methodology that was based upon a review of the relevant literature and Wisconsin specific policies and available data sources This review culminated in a program

assessment tool focused on four contributing areas of teen driver training and education 1 Guardian Involvement 2 Driver Education and Training Curricula Requirements 3 GDL Coordination and 4 Instructor Qualifications The proposed methodology was presented to the Project Oversight Committee and was validated through two rounds of pilot testing using materials provided by programs and schools under the oversight of both WisDOT and the Wisconsin Department of Public Instruction The resulting methodology informed the Phase II implementation plan recommendations Work products included within this report are an annotated bibliography a knowledge base documenting best practices and Wisconsin specific data sources a methodology that may be used to analyze and evaluate the effectiveness of driver training programs as they relate to the demonstrated safety and behavior of teen drivers in Wisconsin and a three phase implementation plan Technical report documentation page Manual for Assessing Training Needs for Local Authorities Jane E.
