## THE SOFT MACHINE

Best album by the English rock band The Soft Machine (named after William S. Burroughs' novel), one of the best avant-garde recordings, along with Caravan, of the "Camberwell Sound". The masterpiece was released in 1968 and features the hit of Robert Wyatt (Pinto's uncle), Mike Ratledge (aged 5 years) and Kevin Ayers (then, vocals 5 years). This was the only album by the band recorded in Ayers. Additional personnel included James (high school) who would later become a prominent musician after Ayers' departure, and the 1967 rock group The Gods. The first alternative rock cover of this first album is mounted at the legendary Manhattan club, The Royal Play, which had been frequented with Jimi Hendrix's Electric Ladyland that same year. The album was given a 5-star rating on AllMusic by reviewer Richie Unterberger. The group is considered one of the most influential underground bands of their era.

**Hard Facts About Soft Machines** Rani Lueder, Kageyu Noro, 2020-12-17 Although work furniture has had so much more attention recently there is a long way to go before this is translated into action in the wider world

Increased international concern for the health and safety of people at work is one of the driving forces behind this book. The Science of Seating brings together researchers in ergonomics and posture with industrial designers to review and assess the current state of chair design with implications for cultural, behavioural and occupational aspects of health. The contributions are a significant step in the science of seating and should lead to a better understanding of the mechanics, dynamics and the effects of seating on the sitter. They point to ways in which seats might become easier to use and adjust, offering both comfort and postural support without compromising freedom of movement and in the not too distant future the intelligent chair will remember the sitter's preferences for position, cushioning and so on. Topics covered include Adjustability, Anthropometrics, Posture, Back Pain, Biomechanics, Seat Pressure Distributions, School children, Special Needs of Users, Design Applications, Industry Perspectives, VDT Standards. It is aimed at researchers and practising seating designers, ergonomists, design engineers, occupational health workers and physiotherapists and furniture manufacturers.

William S. Burroughs Cutting Up the Century Joan Hawkins, Alex Wermer-Colan, 2019-05-17. This definitive book on Burroughs' decades-long cut-up project and its relevance to the American twentieth century, including previously unpublished works. William S. Burroughs's Nova Trilogy, *The Soft Machine*, *Nova Express* and *The Ticket That Exploded* remains the best known of his textual cut-up creations, but he committed more than a decade of his life to searching out multimedia for use in works of collage. By cutting up, folding in and splicing together newspapers, magazines, letters, book reviews, classical literature, audio recordings, photographs and films, Burroughs created an eclectic and wide-ranging countercultural archive. This collection includes previously unpublished work by Burroughs such as cut-ups of work written by his son, cut-ups of critical responses to his own work, collages on the Vietnam War and the Watergate scandal, excerpts from his dream journals and some of the few diary entries that Burroughs wrote about his wife Joan. William S. Burroughs' *Cutting Up the Century* also features original essays, interviews and discussions by established Burroughs scholars, respected artists and people who encountered Burroughs. The essays consider Burroughs from a range of perspectives: literary studies, media studies, popular culture, gender studies, post-colonialism, history and geography. A landmark in scholarship. Choice.
